

2015 Registry Individual Measure Flow
PQRS #390: Discussion and Shared Decision Making Surrounding Treatment Options

SAMPLE CALCULATIONS:

Reporting Rate=

Performance Met (a=3 patients) + Performance Exclusion (b = 2 patients) + Performance Not Met (c = 2 patients) = 7 patients = 87.50%
 Eligible Population / Denominator (d=8 patients) = 8 patients

Performance Rate=

Performance Met (a=3 patients) = 3 patients = 60.00%
 Reporting Numerator (7 patients) – Performance Exclusion (b =2 patients) = 5 patients

*See the posted Measure Specification for specific coding and instructions to report this measure.
 NOTE: Reporting Frequency: Patient - process

2015 Registry Individual Measure Flow
PQRS #390: Discussion and Shared Decision Making Surrounding Treatment Options

Please refer to the specific section of the Measure Specification to identify the denominator and numerator information for use in reporting this Individual Measure.

1. Start with Denominator
2. Check Patient Age:
 - a. If Patient Age is greater than or equal to 18 Years on the Date of Service equals No, do not include in Eligible Patient Population. Stop Processing.
 - b. If Patient Age is greater than or equal to 18 Years on the Date of Service equals Yes, proceed to check Patient Diagnosis.
3. Check Patient Diagnosis:
 - a. If Diagnosis of Chronic Hepatitis as Listed in the Denominator equals No, do not include in Eligible Patient Population. Stop Processing.
 - b. If Diagnosis of Chronic Hepatitis as Listed in the Denominator equals Yes, proceed to check Encounter Performed.
4. Check Encounter Performed:
 - a. If Encounter as Listed in the Denominator equals No, do not include in Eligible Patient Population. Stop Processing.
 - b. If Encounter as Listed in the Denominator equals Yes, include in the Eligible population.
5. Denominator Population:
 - a. Denominator population is all Eligible Patients in the denominator. Denominator is represented as Denominator in the Sample Calculation listed at the end of this document. Letter d equals 8 patients in the sample calculation.
6. Start Numerator
7. Check Documentation in Patient Record of Discussion Between Provider and Patient That Includes All Appropriate Treatment Choices:
 - a. If Documentation in Patient Record of Discussion Between Provider and Patient that Includes All Appropriate Treatment Choices equals Yes, include in Reporting Met and Performance Met.
 - b. Reporting Met and Performance Met letter is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter a equals 3 patients in Sample Calculation.
 - c. If Documentation In Patient Record Of Discussion Between Provider And Patient that Includes All Appropriate Treatment Choices equals No, proceed to check Documentation of Medical Or Patient Reason for Not Discussing Treatment Options
8. Check Documentation of Medical or Patient Reason for Not Discussing Treatment Options:
 - a. If Documentation of Medical or Patient Reason for Not Discussing Treatment Options Yes, include in Reporting Met and Performance Exclusion.

- b. Reporting Met and Performance Exclusion letter is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter b equals 2 patients in the Sample Calculation.
 - c. If Documentation of Medical or Patient Reason for Not Discussing Treatment Options equals No, proceed to check No Documentation of a Discussion in the Patient Record of a Discussion Between the Provider and the Patient.
 9. Check No Documentation of a Discussion in the Patient Record of a Discussion Between the Provider and the Patient:
 - a. If No Documentation of a Discussion in the Patient Record of a Discussion Between the Provider and the Patient equals Yes, include in the Reporting Met and Performance Not Met.
 - b. Reporting Met and Performance Not Met letter is represented in the Reporting Rate in the Sample Calculation listed at the end of this document. Letter c equals 2 patients in the Sample Calculation.
 - c. If No Documentation of a Discussion in the Patient Record of a Discussion Between the Provider and the Patient equals No, proceed to check Reporting Not Met.
 10. Check Reporting Not Met:
 - a. If Reporting Not Met Quality Data Code or equivalent was not reported. 1 patient has been subtracted from reporting numerator in the sample calculation.

SAMPLE CALCULATIONS:

Reporting Rate=

$$\frac{\text{Performance Met (a=3 patients) + Performance Exclusion (b = 2 patients) + Performance Not Met (c = 2 patients)}}{\text{Eligible Population / Denominator (d=8 patients)}} = \frac{7 \text{ patients}}{8 \text{ patients}} = 87.50\%$$

Performance Rate=

$$\frac{\text{Performance Met (a=3 patients)}}{\text{Reporting Numerator (7 patients) - Performance Exclusion (b =2 patients)}} = \frac{3 \text{ patients}}{5 \text{ patients}} = 60.00\%$$
