SUBJECT: New Waived Tests

EFFECTIVE DATE: October 1, 2009

IMPLEMENTATION DATE: October 5, 2009

I. GENERAL INFORMATION

A. Background:

The Clinical Laboratory Improvement Amendments of 1988 (CLIA) regulations require a facility to be appropriately certified for each test performed. To ensure that Medicare & Medicaid only pay for laboratory tests categorized as waived complexity under CLIA in facilities with a CLIA certificate of waiver, laboratory claims are currently edited at the CLIA certificate level.

Listed below are the latest tests approved by the Food and Drug Administration as waived tests under CLIA. The Current Procedural Terminology (CPT) codes for the following new tests must have the modifier QW to be recognized as a waived test. However, the tests mentioned on the first page of the attached list (i.e., CPT codes: 81002, 81025, 82270, 82272, 82962, 83026, 84830, 85013, and 85651) do not require a QW modifier to be recognized as a waived test.

CPT Code	Effective Date	Description
82274QW G0328QW	December 4, 2008	Jant Pharmacal Accutest Immunological Fecal Occult Blood Test (iFOBT)

86318QW	May 21, 2009	Inverness Medical Signify H. Pylori Whole Blood
86318QW	May 21, 2009	EarlyDetect H. Pylori Whole Blood Rapid Test

Change Request 6179 assigned the CPT code 83520QW to the HemoCue Albumin 201 System. Based on a concern received from the laboratory industry, this code has been changed to 82043QW with an effective date of October 1, 2009.

B. Policy: The CLIA regulations require a facility to be appropriately certified for each test performed. To ensure that Medicare and Medicaid only pay for laboratory tests categorized as waived complexity under CLIA in facilities with a CLIA certificate of waiver, laboratory claims are currently edited at the CLIA certificate level.
