1. INTRODUCTION

1.1 Purpose

The purpose of this User Manual is to provide the information necessary for using the MED online application.

1.2 Scope

The user manual covers the following topics related to the usage of MED online application:

- Overview of the MED Online Application
- The minimum requirements to access the system
- Overview of the application's organization and navigation
- Explanation of user roles and access privileges
- Explanation of using the application, navigating through various screens, their functionality etc.

The following is not within the scope of this document:

- This document does not provide instructions for obtaining the IACS login ID and Password to access the MED online application.
- This document does not provide instructions for obtaining access to the GENTRAN mailbox.

2. REFERENCED DOCUMENTS

The following documents were referenced during the development of this document:

Table 1: Referenced Documents

Document Name	Document Number	Issuance Date
IACS – User Guide for CMS User Communities	IACS.UG.1.0	7/30/2010
Enterprise File Transfer (EFT) GENTRAN User's Guide	Version 2.0	4/15/2010

3. OVERVIEW

The MED online application provides the ability to download the monthly provider sanctions/reinstatements files, perform an inquiry on the excluded providers, and perform monthly matching process and administration.

3.1. Conventions

The following conventions have been used in the user manual.

- HTML Form field names are shown in **maroon text**.
- HTML Form buttons where user can click is shown in **black text with grey background**.
- Reference to Menus is shown in **white text with blue background**.
- Reference to Screen name is shown in **yellow text with blue background**.
- When a screen has data displayed in rows and column, the column titles will be shown in *blue italics*.
- In order to protect the PII and the system security, some of the details on the screen print images have been blurred. The values are in plain text and do not inhibit the application users from understanding the application.
- **Bold** is used to highlights the text.

3.2. Cautions & Warnings

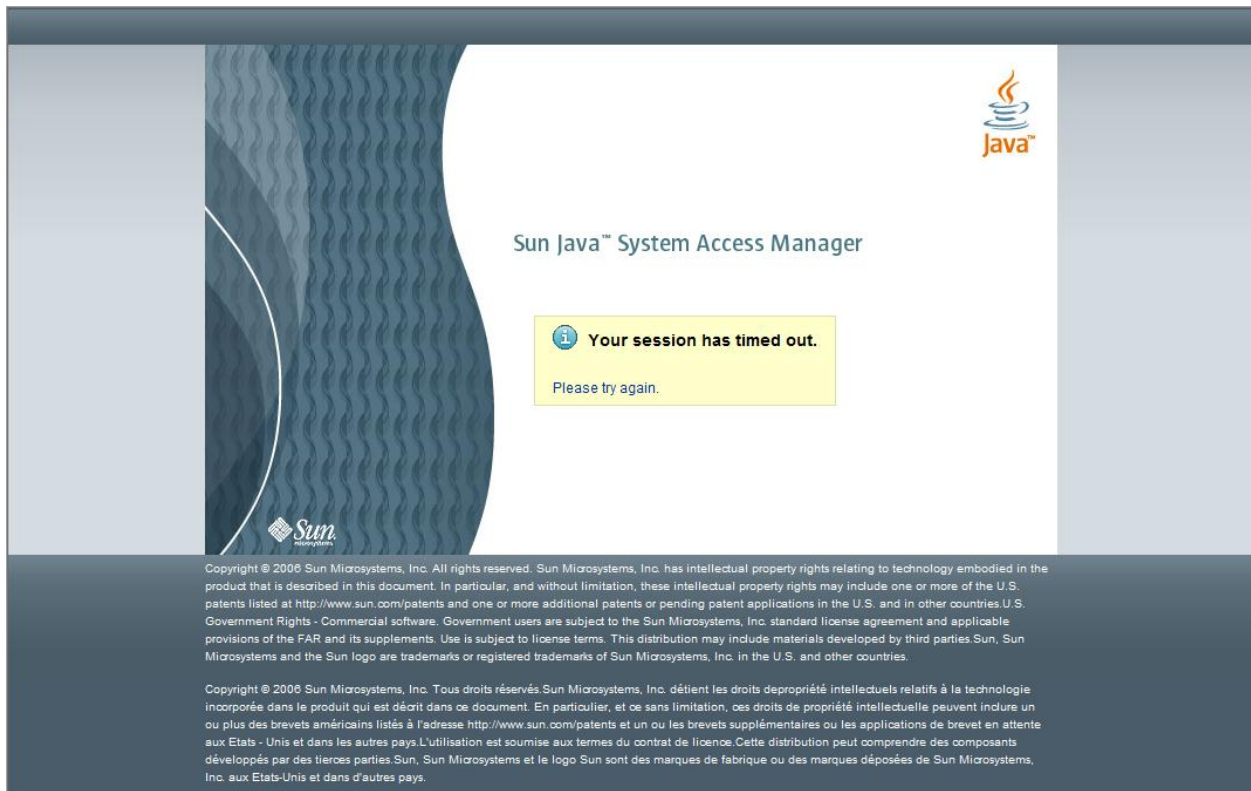

The user of the MED online application must be aware of the rules, regulations, prohibitions, and privacy limitations when accessing the US Government Systems. The user must read and agree to such notices before accessing the MED online application.

3.3. Application Access Time-out

The MED online application will close the application session if there is no application activity for more than 10 minutes by the user. Application activity includes clicking on any menus, performing record searches, navigating through the record set etc.

The following screen will appear if any link is clicked after the session times out.

Screen Print 1: MED Online Application Session Timeout

4. GETTING STARTED

4.1 Set-Up Considerations

To the access to the MED online application, please ensure the PC has the following minimum requirements:

1. **Screen Resolution:** The MED online screens are designed to be viewed at a minimum screen resolution of 1280 x 768.
2. **Internet Browser:** Access to an internet browser (IE, Firefox, Chrome etc.) with JavaScript enabled.

4.2 Accessing the System

The MED online application can be accessed using the URL: <https://med.cms.hhs.gov/> from an internet browser. In order to access the application, the user must obtain the IACS (Individuals Authorized Access to the CMS Computer Services) logic credentials.

How users register for MED IACS account?

IACS registration process to receive an IACS user ID and password is done by registering at <https://applications.cms.hhs.gov>. After clicking “Enter CMS Applications Portal”, please select

Medicare Exclusion Database (MED)

Account Management, and then New User Registration. Select ‘Medicare Exclusion Database’ from the listed applications, and then proceed with your registration form.

IMPORTANT: Please be sure to select “MED User” as your role, and enter MEDUSER for the mailbox name. Failure to do so will result in your application being rejected. If you need assistance with your IACS registration, please contact the EUS Help Desk.

The user should refer to the document ‘IACS User Guide for CMS User Communities’ (Document # IACS.UG.1.0) to perform following activities:

1. Request new user account
2. Initial account setup
3. Change Password
4. Other account maintenance

4.3 User Roles and Access Setup

The MED online application provides role-based security to the application and information. The features and information available to a user is based on the role that has been assigned to the user by the MED CMS business owner/authorizer. The MED online application identifies the following types of user roles.

1. **MED-USER:** This user role provides basic privileges to access the MED online application. This role allows the user to search for the provider records and view the provider details but does not allow the user to update or edit any information. The user with this type of role will be referred as ‘med user’ or ‘regular user’. This is the default role given to all users.
2. **MED-POWERUSER:** This user role allows the user to search for the provider records and edit most of the information in the MED application except modifying the administration code descriptions and viewing/editing the MED Audits and MED Users. The users with this role will be referred as ‘Power users’ in the user manual.
3. **MED-ADMIN:** The user with this role has the highest level of privileges when using the MED online application. In addition to the having the privileges available to other roles, the MED-ADMIN type users have access to modify the administration code descriptions, view the changes made by other users to provider records, and modifying the information of other MED online application users. The users with this role will be referred as ‘Admin users’ in this document.

The following table provides the information about the various sections and screen within the MED online application and the user roles with access privileges to each section/screen as it applies.

4.4 System Organization & Navigation

4.4.1 Application Screen Setup

The MED online application screens can be divided in three sections:

- i. Navigation Menu Section
- ii. Session Detail Section
- iii. Page Detail Section

The following is a sample screen print identifying various sections of a typical MED online application screen.

Screen Print 2: MED Online Application Screen Sections

Navigation Menu Section: The navigation menu section is the screen area where the MED online application menu is displayed. This section shows the menu based on the user's role.

Session Detail Section: The session detail section of the screen shows the following information:

- User: User's login ID with which the user is logged in.
- Role: The role assigned to the user's login ID.
- Date: Date the user logged into the application.
- Screen Name: The current screen name with the page code in the brackets (example: **MED Welcome screen (W0001)**) is displayed.

Page Detail Section: In the page detail section of the screen area, the page information is displayed. This section of the screen displays the information based on the menu selection and user activity.

4.4.2 Navigation Menu Setup

The application navigation menu provides the users with links to access various application features. The navigation menu displays different set of menu based on the user's role. The **Administration** menu item has an additional sub-menu that is displayed based on the user's account privileges. The following screen prints shows all the available menus available to each user role.

The following screen print shows the menus for the Regular User:

Screen Print 3: Navigation Menu - MED-USER

Medicare Exclusion Database (MED)

The following screen print shows the menus for the Power User:

Screen Print 4: Navigation Menu - MED-POWERUSER

The following screen print shows the menus for the Admin User:

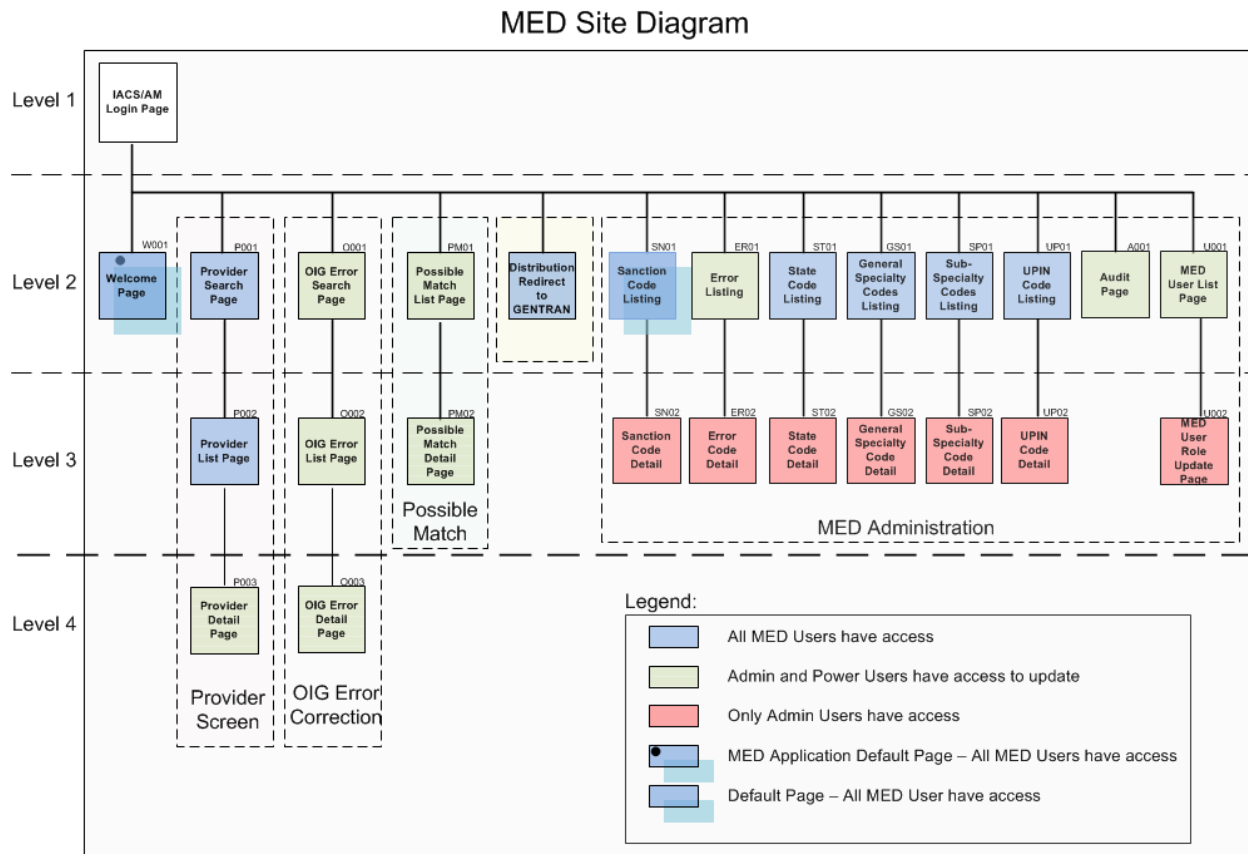

Screen Print 5: Navigation Menu - MED-ADMIN

4.4.3 Application Organization and Navigation:

The MED online application's features are functions organized by the sections and each section has server pages providing various functionalities. Based on the user role, the access to certain pages within the application section is limited or the section is totally inaccessible. The following diagram shows the application screen structure.

Figure 1: Application Layout

The above diagram shows the layout of the MED online application screen pages. The application has various sections such as ‘Provider Screen’, ‘OIG Error Correction’, ‘Possible Match’, etc. Within each application section, there are several pages providing different functionalities. The application sections and screens pages are accessed using navigation menu. From the above screen print, the dotted box represents the section and each solid box is a page within in the section.

4.5. Exiting the System

To exit from the MED online application, click the **Logout** button located at the top-right corner of the screen on every page. Though different types of users have different menus, the location of **Logout** button is same for all the users.

Screen Print 6: Logout Button

Medicare Exclusion Database (MED)

Once the **Logout** button is clicked, the user is logged out of the application and following screen is displayed:

Screen Print 7: Logout Page

As an added security measure, it is recommended to close the browser window or tab through which the MED online application was accessed, so that the application session is completely closed.

5. USING THE SYSTEM

The following sub-sections provide detailed instructions on how to use the various functions and features of the MED online application.

5.1 Login Process

The MED online application login process is explained in the following sections.

5.1.1 Login Page

To access the MED online application's **Login Page**, the user must first open the URL <https://med.cms.hhs.gov/> using an internet browser. As mentioned previously in the section 4.2.2, the user must have an IACS login ID and Password before attempting to access the online application.

The following is the screen print of the login page:

Screen Print 8: Login Screen

Access Manager Login Page for 2010.3

U.S. Department of Health & Human Services www.hhs.gov

CMS Centers for **Medicare & Medicaid** Services

Individuals Authorized Access to the CMS Computer Services (IACS)

This server uses Data Store Authentication

The Federal Information Security Management Act (FISMA) of 2002 requires that the local system used to access CMS Computer Systems has up-to-date operating system patches and is running anti-virus software.

You must have an IACS User ID and Password to login. If this is your first time logging in, please use the User ID and the one-time password that was e-mailed to you by IACS.

Effective September 29, 2006, your password will be set to expire every sixty days. In the event your password does expire, you will be prompted to change your password. For further assistance, contact your CMS help desk.

Enter your User ID and password, and then click **Login**. If you can't remember your password, click **Forgot your password?** If you can't remember your User ID, click **Forgot your User ID?**

By selecting **Login**, the user is confirming that they have read and accepted the IACS Terms and Conditions

User Name:

Password:

Medicare Exclusion Database (MED)

The web page has two fields **User Name** and **Password** where the user enters the IACS login ID and Password. Click the **Log In** button to initiate the authentication process. Upon successful authentication, the user is taken to the MED application home page.

5.2 Welcome Page (W001)

The **Welcome Screen (W001)** is the main home page of the MED Online application. A user is taken to this screen after successful authentication through the IACS system.

The detail section of the following screen print shows the **Welcome Screen** as it appears to the MED-USER and the MED-POWERUSER roles.

Screen Print 9: Welcome Page (W001) – MED-USER AND MED-POWERUSER

No action is necessary for the Regular and Power users except to make sure they read the text within the **Welcome** text box.

Welcome Screen (W001) for the Admin User:

The **Welcome Screen (W001)** for the Admin user is slightly different than other users because it allows the admin users to edit the message in the welcome textbox and save it. The saved message is shown to all users when they log in.

Below is the screen print of the Welcome Screen as shown to a user with MED-ADMIN role:

Screen Print 10: Welcome Page (W001) – MED-ADMIN

Medicare Exclusion Database (MED)

The admin user can type the message within the **Welcome** text box and click the **Save** button to communicate any information to rest of the user community.

5.3 MED Distribution

The **MED Distribution** page allows the users to download the monthly ‘Distribution Files’ and the ‘MED File Creation Utility’ (MFCU). The **MED Distribution** page provides both the instructions to download the utility and URL link to the GENTRAN mailbox access. The user will access the GENTRAN mailbox to download the files in ASCII/text file. To generate other file formats such as DBF, MDB (Microsoft Access) and EPD, the user will use the ‘MED File Creation’ utility. The user needs to download the MFCU one time.

The following is the screen print of the Distribution page:

Screen Print 11: MED Distribution Screen (D001)

MED File Creation Utility
Click [here](#) to download the MED application.

Brief Description
MED utility to produce distribution files. Reads the 5 input extract files and creates Access, DBF, text and EPD files.

Instructions
To install this download:

- Download the **File Creation Utility** by clicking the link above and saving the file on your local hard disk
- Double-click on the MED_FCUI.ZIP file and extract files into C:\. This will create C:\MED-FCU folder.
- To configure and run the utility; please refer to **MED File Creation Utility User Manual**

MED GENTRAN Mailbox
Click [here](#) to access the Gentrans mailbox to download the latest update file.

The following sections explain the MED File Creation Utility and the GENTRAN mail box from the above screen.

5.3.1 MED File Creation Utility (MFCU) – One Time Download and Install

To create distribution files in a different format other than ASCII/text, the user will need to do a one-time download and installation of a small non-intrusive application called ‘MED File Creation Utility’. This utility reads MED ASCII/Text Distribution files and creates other file formats.

The instructions to download and install the MED File Creation Utility are as follows:

- The MED File Creation Utility can be downloaded from MED online application, navigate to Distribution screen (D001) and download the utility by clicking on the link and saving the file MED_FCUI.zip to local hard drive.
- Open the folder where the MED_FCUI.zip is saved and double click on the file.

Medicare Exclusion Database (MED)

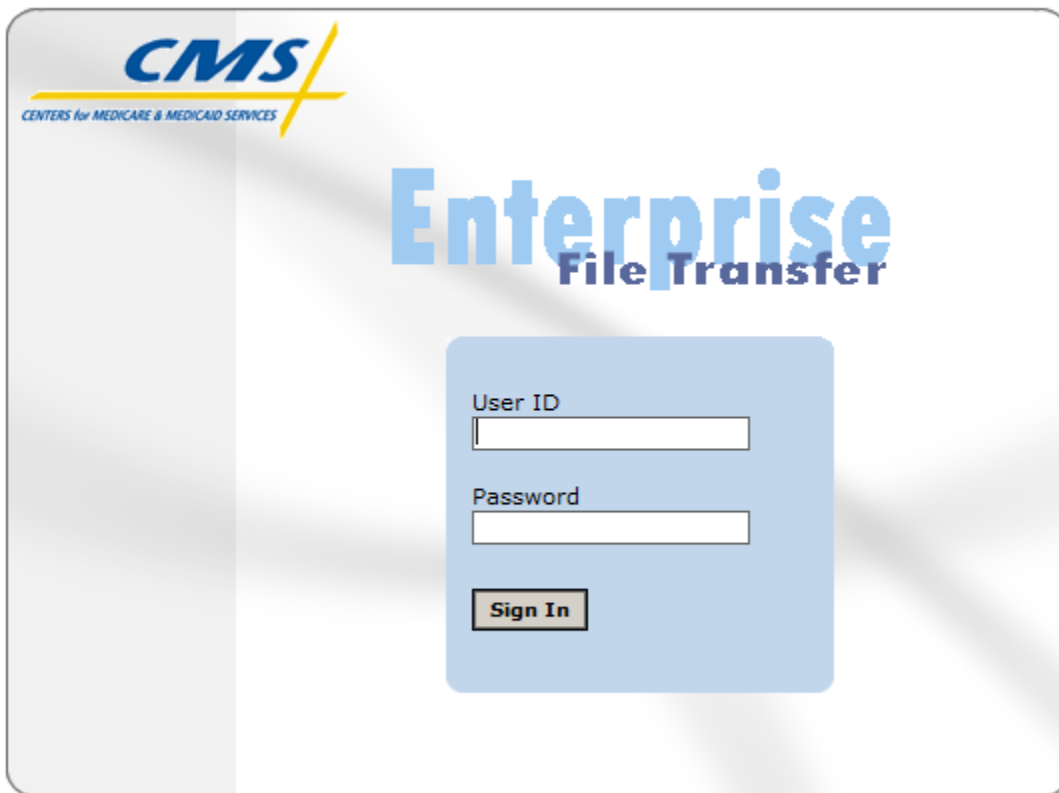

- Extract the utility to C:\. It will create a new folder C:\MED-FCU and extract the utility files into this folder.
- To configure and run the utility, please refer to the MED File Creation Utility User Manual.

5.3.2 Download MED Distribution files from GENTRAN mailbox

When the user clicks on the URL <https://gis.cms.hhs.gov:3443/mailbox>, the user is directed to GENTRAN mailbox where the user can download the current month distribution file

The following is the screen print of the GENTRAN mailbox login screen:

Screen Print 12: GENTRAN- Login Screen

To access GENTRAN, you must use the GENTRAN user ID (GUID) assigned to you by the IACS system. This is a 7-character user ID. End users who require access to multiple mailboxes must request access to those mailboxes through the IACS system and be approved through a specific workflow process.

The user could download current month 5 extract files into their local drive. i.e. '**C:\MED-FCU\Extract**' folder. **Please note the user should use this folder structure because the MED File Creation Utility will use this folder.**

The five MED distribution files (Text/ACII) and its description are given in Table 3 below.

Table 3: MED Distribution files from GENTRAN (Text/ASCII)

MED Distribution File Name	Description
P.MEDEXC.CUMLTVSN.DYYMMDD.THHMMSST.pn	The Cumulative Sanction file contains all active excluded providers.
P.MEDEXC.CUMREIN.DYYMMDD.THHMMSST.pn	The Cumulative Reinstatements file contains all providers currently in the MED database that have been reinstated.
P.MEDEXC.NONMED.DYYMMDD.THHMMSST.pn	The Non-MED file contains records that were received from OIG but could not be processed due to errors. These are not added to the MED database.
P.MEDEXC.REINST.DYYMMDD.THHMMSST.pn	Current month Reinstatement File
P.MEDEXC.SANCT.DYYMMDD.THHMMSST.pn	Current month Sanction File
where: yymmdd = year/month/day file received hhmsst = hour/minute/second/thousands of second pn = GENTRAN process number	

The Table 4 below shows the layout of the MED distribution files:

Table 4: MED Distribution files - Layout

FILLER	335	340

These files have a retention period of 30 days. Please send a request to MED support if prior month distribution file is required.

5.3.3 Run Med File Creation Utility (MFCU) to create other formats

To create the distribution files in a different format other than ASCII/text, the user will need to use the MFCU to create other file formats (DBF, MDB and EPD).

The following are the steps to run the MED File Creation Utility:

- Please ensure that the 5 distribution files in text format are downloaded and in your local drive as instructed in section Download MED Distribution files from GENTRAN mailbox
- Double click 'FCU.BAT' in C:\MED-FCU.
- The MED distribution files in the following formats will be created in folder 'C:\MED-FCU\Files' :
 - a) DBF format
 - b) Access database format (MDB)
 - c) Self-contained Access application - Excluded provider database (EPD) application
 - d) ASCII format

The details of the output files are given below in Table 5.

Table 5: Output of MED File Creation Utility

#	File Name	Description
1	YYYY MM MED Access - cum.mbd	Access cumulative sanction file
2	YYYY MM MED Access - nmed.mbd	Access Non-MED file
3	YYYY MM MED Access - rcum.mbd	Access cumulative reinstatement file
4	YYYY MM MED Access - rein.mbd	Access current month reinstatement file

11	YYYY MM MED ASCII - sanc.txt	ASCII current month sanction file
12	YYYY MM MED DBF - cum.dbf	DBF cumulative sanction file
13	YYYY MM MED DBF - nmed.dbf	DBF Non-MED file
14	YYYY MM MED DBF - rcum.dbf	DBF cumulative reinstatement file
15	YYYY MM MED DBF - rein.dbf	DBF current month reinstatement file
16	YYYY MM MED DBF - sanc.dbf	DBF current month sanction file

Note: If users would like to change the default folders they could change the default folders. The details are given in Appendix B.

5.4 Provider Information

One of the main functions of the MED online application is the ability to search for the providers who have been excluded or reinstated by the OIG. The provider feature of the application also allows the users to search for providers based on the search criteria and view the details about a specific provider. The MED-POWERUSER and MED-ADMIN users are also allowed to edit and update the provider’s record. The following sections provide details about the provider section.

5.4.1 Provider Search Screen (P001)

When the user clicks on the **Provider** menu in the navigation menu section, the **Provider Search Screen (P001)** page is displayed. This web page allows the user to enter various search criteria to search the providers. All the fields have a tool-tip icon to the right of the input field for users to get brief information about the field. The user should simply place the mouse pointer on top of the tool-tip icon and helpful information about the field is displayed.

The following is the screen print of the Provider Search Screen (P001). The detail section of the page is same for all types of users:

Screen Print 13: Provider Search (P001)

The flowing table describes the form fields in detail.

Table 6: Provider Search Screen - Field Values

Field	Input / Limitation	Optional / Required	Description
MED ID Range	Numeric Value, Input range 1 to 6 Digits, 6 Digits Max	Optional	Enter the MED ID Range. If you know the MED ID of the specific provider, enter it in the "From" field and leave the "To" field empty. Maximum 6 digits in length. Only numeric characters allowed
Provider Type	Radio Button Selection (Choose one value)	Optional	Provider type is either an Individual or a Business. By default the application considers 'All' types of providers.
Business/Last Name	Alpha Numeric, 20 Char Max	Optional	Enter the full or partial (initial characters) name of the Business or Individual's Last Name.

Field	Input / Limitation	Optional / Required	Description
EIN/SSN Number	Numeric, 9 digits max	Optional	Enter the full or partial business EIN or individual's SSN for the search criteria. Entering first few digits displays all the records that has the matching initial digits
NPI Number	Numeric, 10 digits max	Optional	Enter the full or partial (initial characters) NPI number of the provider
Sanction Date Range	Checkbox, Date Range	Optional	Select the Check Box AND date range for the range of dates when the sanction is placed on the provider
Reinstatement Date Range	Checkbox, Date Range	Optional	Select the Check Box AND date range for the range of dates when the provider was reinstated
Provider State	Drop Down Selection	Optional	Select the State of the provider
Sanction Type	Radio Button Selection (Choose one value)	Optional	Select the Sanction type to include in the search criteria. Select either all, or only Sanctions or only reinstatement.

5.4.2 Provider List Screen – (P002)

After the user has entered the search criteria and searched for the provider, the records matching the search criteria are shown on the [Provider List Screen \(P002\)](#) page.

Below is the screen print of the sample search result as shown to a regular user:

Screen Print 14: Provider List Screen (P002) – MED-USER

1 - 10 of 1000 [Next](#) [Last](#)

MED ID↑	Provider Type	Provider Name	Provider Identifier	Date Of Birth	City	State	Zip	NPI	Sanction Count	Action

[Back](#)

The search results are shown in a tabular format such that each provider record forms a row and the provider details are shown in columns. The provider details are shown in the columns labeled

Medicare Exclusion Database (MED)

MED ID, Provider Type, Provider Name, Provider Identifier, Date of Birth, City, State, Zip, NPI, and Sanction Count.

The application is configured to show a maximum of 1000 records that match the search criteria. If the search result count is over 1000 records, then the records over the 1000 limit are not displayed. The user needs to expand the search criteria to narrow the search. The number of records that are displayed by default on this web page is 10. This can be changed by selecting the desired number of rows to be display from the drop down list of **Page Size** values and clicking the **Go** button. The page size limit is saved for the session and applies to all other searches.

The provider search result records are displayed by default in the ascending order of MED ID values. The users can change the sort by the column labels - MED ID, Provider Name, City, and State either in ascending or descending order. A small arrow to the right of the column name indicates the column the sort order is based on and the direction of arrow indicates wither it is in the ascending (↑) or descending (↓) order. Click on the column label to switch between ascending or descending order.

Clicking the **Browse** button will display the full details of the provider record.

5.4.3 Record Details – (P003)

Once the user clicks the **Browse** button on the Provider List Screen (P002), the **Browse Provider Screen (P003)**, the full details of the provider record, is show in a ‘read-only’ view. The information presented is slightly different based on the provider type.

The following is the screen print of the ‘Individual’ provider record detail:

Screen Print 16: Browse Provider Screen (P003) – Individual Provider

The screenshot shows the Medicare Exclusion Database (MED) interface. At the top, it says "CMS Centers for Medicare & Medicaid Services" and "Medicare Exclusion Database". The user is logged in as "MED-USER" with a "Logout" button. The navigation menu includes "Welcome", "Provider", "Distribution", "Administration", "Help", and "Print".

The main form displays the following fields:

- MED ID: []
- Name: [REDACTED]
- SSN: [REDACTED]
- General Description: DRUG COMPANY/SUPLIER
- Street Address: [REDACTED]
- City: [REDACTED] State: [REDACTED] Zip: [REDACTED]
- NPI: [REDACTED]
- OSCAR: [REDACTED]
- Carrier ID: [REDACTED]
- Provider Type: Individual
- Sanction Count: 0
- Date of Birth: [REDACTED] May [REDACTED]
- Sub-Specialty Description: OWNER
- UPIN: [REDACTED]
- NSC: [REDACTED]
- Intermediary ID: [REDACTED]

Notes: Some notes to update

Sanctions and Reinstatements

Have 1 Sanction History

Sanction	Sanction Date	Reinstatement Date	Status
[REDACTED]	[REDACTED]	[REDACTED]	A

Medicare Exclusion Database (MED)

The following is the sample screen print if the provider type is a 'Business'. Notice there is no 'Date of Birth' field and some of the field names are different.

Screen Print 17: Browse Provider Screen (P003) – Business Provider

The screenshot displays the Medicare Exclusion Database (MED) interface. At the top, the CMS logo and 'Centers for Medicare & Medicaid Services' are visible. The page title is 'Medicare Exclusion Database' and the user role is 'MED-USER'. The current screen is 'Browse Provider Screen (P003)'. The navigation menu includes 'Welcome', 'Provider', 'Distribution', 'Administration', 'Help', and 'Print'. The main form contains the following fields:

- MED ID: [Text Input]
- Business Name: [Text Input]
- EIN: [Text Input]
- General Description: DME COMPANY
- Sub-Specialty Description: DME/GENERAL
- Street Address: [Text Input]
- City: [Text Input], State: [Text Input], Zip: [Text Input]
- NPI: [Text Input]
- UPIN: [Text Input]
- OSCAR: [Text Input]
- NSC: [Text Input]
- Carrier ID: [Text Input]
- Intermediary ID: [Text Input]
- Provider Type: Business
- Sanction Count: 0
- Notes: [Text Area]

A 'Cancel' button is located at the bottom left of the form.

Sanctions and Reinstatements

Have 1 Sanction History

Sanction	Sanction Date	Reinstatement Date	Status
1	1/1/2011	1/1/2011	...

The provider detail page shows the additional information about the provider. This information includes the following:

- MED ID
- Provider type
- Name (if provider is of 'Individual' type)
- Business Name (if provider is of 'Business' type)
- SSN (if provider is of 'Individual' type)
- EIN (if provider is of 'Business' type)
- Date of Birth (if provider is of 'Individual' type)
- General Description (General Specialty Description)
- Sub-Specialty Description
- Street Address, City, State, and Zip
- NPI
- UPIN
- OSCAR
- NSC
- Carrier ID
- Intermediary ID

- **Notes.**

The user can click the **Cancel** button to return to the previous screen.

Provider's Record History:

The values displayed in the fields are the current active information for the provider. If there has been any change to the provider's information, the history of changes is shown below the **Cancel** button. The following are various sections that provide the information about changes made to the record:

- **Sanctions and Reinstatements**: Displays information about all the sanctions and reinstatements that were applied to the provider.
- **Name History**: This section displays the history of name changes with old and new names.
- **SSN History / EIN History**: This section displays the history of changes made to the SSN / EIN number. The title of the history section will be 'SSN History' or 'EIN History' if the provider is either 'Individual' or 'Business' respectively.
- **DOB History**: This section displays the history of changes made to the date of birth.
- **Address History**: This section displays the history of changes made to the address of the provider.
- **NPI History**: This section displays the history of changes made to the NPI number.
- **UPIN History**: This section displays the history of changes made to the UPIN History.
- **Oscar History**: This section displays the history of changes made to the Oscar value.
- **NSC History**: This section displays the history of changes made to the NSC value.

At the complete bottom of the screen, it shows the message '*You have reached bottom of the page. Press Cancel button at the top*'. Click the **Cancel** button to return to the previous page.

5.4.4 Edit Provider Record – (P003)

The **Edit Provider Screen (P003)** screen is accessed by clicking the **EDIT** button found on the right side of each Provider record row in the search result page (P002). The **EDIT** button is only accessible to the Power users and Admin Users.

The following is the screen print of the edit provider screen (P003) if the provider type is 'Individual':

Screen Print 18: Edit Provider Screen (P003) – Individual Provider

The screenshot shows the 'Edit Provider Screen (P003)' for an individual provider. The form is titled 'Medicare Exclusion Database' and includes a navigation menu with 'Provider' selected. The user is identified as 'MED-POWERUSER'. The form fields are as follows:

- MED ID:** [Empty]
- Last Name:** [Empty]
- First Name:** [Empty]
- Middle:** [Empty]
- SSN:** [Empty]
- Date of Birth:** [Empty]
- Provider Type:** Individual
- Sanction Count:** 0
- General Description:** DRUG COMPANY/SUPLIER
- Sub-Specialty Description:** OWNER
- Street Address:** [Empty]
- City:** [Empty], **State:** [Empty], **Zip:** [Empty]
- NPI:** [Empty]
- UPIN:** [Empty]
- OSCAR:** [Empty]
- NSC:** [Empty]
- Carrier ID:** [Empty]
- Intermediary ID:** [Empty]
- Notes:** Some notes to update

The following is the screen print of the edit provider screen (P003) if the provider type is ‘Business’:

Screen Print 19: Edit Provider Screen (P003) - Business Provider

The screenshot shows the 'Edit Provider Screen (P003)' for a business provider. The form is titled 'Medicare Exclusion Database' and includes a navigation menu with 'Provider' selected. The user is identified as 'MED-POWERUSER'. The form fields are as follows:

- MED ID:** [Empty]
- Business Name:** [Empty]
- EIN:** [Empty]
- General Description:** DME COMPANY
- Sub-Specialty Description:** DME/GENERAL
- Street Address:** [Empty]
- City:** [Empty], **State:** [Empty], **Zip:** [Empty]
- NPI:** [Empty]
- UPIN:** [Empty]
- OSCAR:** [Empty]
- NSC:** [Empty]
- Carrier ID:** [Empty]
- Intermediary ID:** [Empty]
- Notes:** [Empty]

The details of each of the field are explained in the following table:

Table 7: Provider Record - Field Values

Field	Editable / Non-Editable	Input Value	Comments
MED ID	Non-Editable	N/A	MED ID is system generated and not editable.
Provider Type	Non-Editable	N/A	Values are either Individual or Business.
Sanction Count	Non-Editable	N/A	Displays a numeric value for number of sanctions.
Business Name	Editable	Alphanumeric, 20 characters maximum	Enter the Business name of the provider. Maximum 20 characters in length. This field is available only if the provider type is 'Business'.
Last Name	Editable	Alphanumeric, 20 characters maximum	Enter the last name of the provider. Maximum 20 characters in length. This field is available only if the provider type is 'Individual'.
First Name	Editable	Alphanumeric, 15 characters maximum	Enter the first name of the provider. Maximum 15 characters in length. This field is available only if the provider type is 'Individual'.
Middle	Editable	Alphanumeric, 15 character maximum	Enter the middle name of the provider. Maximum 15 characters in length. This field is available only if the provider type is 'Individual'.
SSN	Editable	Numeric Only, 9 digits	Enter 9-digit number for SSN. Enter the number in the "nnnnnnnnn" format without any special character or spaces. This field is available only if the provider type is 'Individual'.

Medicare Exclusion Database (MED)

Field	Editable / Non-Editable	Input Value	Comments
EIN	Editable	Numeric Only, 9 digits	Enter 9-digit number for EIN. Enter the number in the "nnnnnnnnn" format without any special character or spaces. This field is available only if the provider type is 'Business'.
Date of Birth	Editable	Day – 2 digit numeric Month – Drop down Year – 4 digit numeric Additionally Calendar button can be clicked to select the date.	Enter date of birth of the provider. Click on the calendar button for popup calendar. This field is available only if the provider type is 'Individual'.
Specialty Description	Editable	Drop down selection menu	Select the "General Description" of the provider's service from the drop down list.
Sub-Specialty Description	Editable	Drop down selection menu	Select the "Sub-Specialties Description" of the provider's service from the drop down list.
Address	Editable	Alphanumeric, 150 characters maximum	Enter the building number and street name. Also provide the unit number if applicable.
City	Editable	Alphanumeric, 20 characters maximum	Enter City.
State	Editable	Drop down selection	Select State from drop down menu.
Zip	Editable	Numeric, 9 digits maximum	Enter the 5 or 9 digit zip code.
NPI	Editable	Numeric, 10 digit maximum, no special chars allowed	Enter 10-digit number for NPI. Please enter the number in the "nnnnnnnnnn" format without any special character or spaces.
UPIN	Editable	Alphanumeric, 6 characters maximum	Enter the "UPIN" value for the provider. Enter alpha-numeric characters, maximum of 6 characters.
OSCAR	Editable	Alphanumeric, 10 characters maximum	Enter the "OSCAR" value for the provider if available. Enter alpha-numeric characters, maximum of 10 characters.

Field	Editable / Non-Editable	Input Value	Comments
NSC	Editable	Numeric, 10 digits, no spaces	Enter 10-digit number for NSC value if available. Please enter the number without any special character or spaces.
Carrier ID	Editable	Alphanumeric, 6 characters, maximum	Enter the "Carrier ID" value for the provider if available. Enter alpha-numeric characters, maximum of 6 characters.
Intermediary ID	Editable	Alphanumeric, 8 characters maximum	Enter the "Intermediary ID" value for the provider if available. Enter alphanumeric characters, maximum of 8 characters.
Notes	Editable	Alphanumeric, 200 characters maximum	Enter any notes about the provider.

After updating the fields, click on the **Save** button to save the changed values or **Cancel** button to return to the previous screen without making any changes.

5.5 OIG Error Correction

The **OIG Error Correction** functionality allows the MED Power users and Admin users to search for the list of providers that had some error in the details, in the information received from the OIG. The application allows the privileged users to search for the provider record with errors; view full details of the provider record and make edits/updates to the providers' records. The following sections explain how to search, view and edit provider records:

5.5.1 OIG Error - Provider Search Form – (O001)

The Power and Admin users can search for the provider error records by using the search form displayed when clicked on the menu **OIG Error Correction**. The form allows the authorized users to search for the provider records and fix any errors that may have occurred when downloading information from OIG.

The following is the screen print of the **OIG Error Search Screen (O001)**:

Screen Print 20: OIG Error Correction Provider Search Screen (O001)

The details of the fields are shown below:

Table 8: OIG Error Correction Screen - Field Values

Field	Input / Limitation	Optional / Required	Description
Load ID Range	Numeric Value, Input range 1 to 6 Digits, 6 Digits Max	Optional	Enter the Load ID Range. If you know the Load ID of the specific provider, enter it in the "From" field and leave the "To" field empty. Maximum 6 digits in length. Only numeric characters allowed.
Provider Type	Radio Button Selection (Choose one value)	Optional	Provider Type is either an Individual or a Business. The default value is 'All'.
Business/Last Name	Alpha Numeric, 20 Char Max	Optional	Enter the full or partial (initial characters) name of the Business or Individual's Last Name.
EIN/SSN Number	Numeric, 9 digits max	Optional	Enter the full or partial business EIN or individual's SSN for the search criteria. Entering first few digits displays all the records that have the matching initial digits.

Field	Input / Limitation	Optional / Required	Description
OIG Error Type	Radio Button Selection (Choose one value)	Optional	Select the OIG Error type to include in the search criteria. Choose the error type between Severe and Warning. 'Both' is selected by default.
OIG Error Status	Radio Button Selection (Choose one value)	Optional	Select one of the radio buttons for the OIG Error Status to include in the search criteria. Select either Corrected or Uncorrected. 'Both' is selected by default and includes all types of Error Status.
Created Date Range	Checkbox, Date Range	Optional	Select the Check Box AND choose the date range during which the provider record was created.

5.5.2 OIG Error - Provider Search Results (O002)

After the user has entered the search criteria and searched for the provider, the records matching the search criteria are shown on the [OIG Error List Screen \(O002\)](#).

Below is the screen print of the sample search result for the Regular user:

Screen Print 21: OIG Error List Screen (O002)

The screenshot displays the Medicare Exclusion Database interface. The header includes the CMS logo and the text 'Centers for Medicare & Medicaid Services'. On the right, it shows 'Medicare Exclusion Database' with user information: 'User: [redacted] Role: MED-POWERUSER Date: [redacted]' and a 'Logout' button. Below the header is a navigation bar with links: 'Welcome | Provider | **OIG Error Correction** | Possible Match | Distribution | Administration | Help | Print'. A 'Page Size' dropdown is set to '10' with a 'Go' button. Below the navigation bar, it says '1 - 10 of 1000' with 'Next' and 'Last' buttons. The main content is a table with the following columns: Load ID, Provider Type, Provider Name, Provider Identifier, Date Of Birth, City, State, Zip, NPI, Error Count, and Action. The table lists 10 providers with their respective details. At the bottom left of the table area, there is a 'Back' button.

Load ID	Provider Type	Provider Name	Provider Identifier	Date Of Birth	City	State	Zip	NPI	Error Count	Action
1	Supplier	CONSTITUTIONAL LAWYERS	12345678	06/15/1980	WASHINGTON DC	DC	20011	1234567890	1	Browse Edit
2	Supplier	HEALTH CARE	12345679		WASHINGTON DC	DC	20011	1234567891	1	Browse Edit
3	Supplier	HEALTH CARE	12345680		HEALTH	DC	20011	1234567892	1	Browse Edit
4	Supplier	HEALTH CARE	12345681	06/15/1980	HEALTH	DC	20011	1234567893	1	Browse Edit
5	Supplier	HEALTH CARE	12345682		HEALTH	DC	20011	1234567894	1	Browse Edit

8	Supplier	HEALTH CARE	12345685		HEALTH	DC	20011	1234567897	1	Browse Edit
9	Supplier	HEALTH CARE	12345686	06/15/1980	HEALTH	DC	20011	1234567898	1	Browse Edit
10	Supplier	HEALTH CARE	12345687		HEALTH	DC	20011	1234567899	1	Browse Edit

Medicare Exclusion Database (MED)

The search results are shown in a tabular format such that each provider record forms a row and the provider details are shown in columns. The provider details are shown in the columns labeled *Load ID, Provider Type, Provider Name, Provider Identifier, Date of Birth, City, State, Zip, NPI, and Error Count*.

The application is configured to show a maximum of 1000 records that match the search criteria. If the search result count is more than 1000 records, then the records over the 1000 limit are not displayed. The user needs to expand the search criteria to narrow the search results.

The number of records that are displayed by default on this web page is 10. This can be changed by selecting the desired number of rows to display from the drop down list of **Page Size** values and clicking on the **Go** button. The page size limit is saved for the session and applies to all other searches.

The provider search result records are displayed by default in the ascending order of MED ID values. The users can change the sort by the column labels - MED ID, Provider Name, City, and State either in ascending or descending order. A small arrow to the right of the column name indicates the sort order based on that column and the direction of arrow indicates whether it is in the ascending (▲) or descending (▼) order. Click on the column label to switch between ascending or descending order.

Clicking the **Browse** button will display full details of the provider record.

5.5.3 OIG Error - View Record Details – (O003)

Once the user clicks **Browse** button in the OIG Error - result screen (O002), the full details of the record are shown in a 'read-only' view.

Below is the screen print of the provider record detail if the provider is an 'Individual':

Screen Print 22: OIG Error - Provider Detail Screen (O003) – Individual Provider

- Sanction Type: [redacted]
- Sanction Date: 18 June 1987
- Provider Type: Business
- Sub-Specialty Description: [redacted]
- UPIN: [redacted]
- Reinstatement Date: 22 February 2011

Below the form is a 'Cancel' button. The 'Error List' section shows 'Found 2 Errors' with a table of error details. The 'Audit Trail' section is also visible.

The detail page shows the additional information about the provider. This information shown on in the page includes the following:

- Load ID
- Provider type
- SSN / EIN
- Date of Birth
- General Description (General Specialty Description)
- Sub-Specialty Description
- Street Address, City, State, and Zip
- NPI
- UPIN
- Sanction Type
- Sanction Date
- Reinstatement Date

The user can click **Cancel** button to return to the previous screen.

Provider’s OIG Error History and Audit History:

In addition to the provider’s record details, the detail page also shows information about history of errors that the record encountered when loading the information from the OIG and history of all the changes that were applied to the Provider’s record. The ‘Audit Trial’ section provides

Medicare Exclusion Database (MED)

information about the *fields that were modified, the old and the new value, the user ID of the updater, and the date/time when the update was performed.*

At the complete bottom of the screen, it shows the message ‘You have reached bottom of the page. Press Cancel button at the top’. Click the **Cancel** button to return to the previous page.

5.5.4 OIG Error - Edit Record – (O003)

The **Edit OIG Error Screen (O003)** is accessed by clicking the **EDIT** button found in the right side of each ‘Provider’ record row in the search result page (O002).

The following is the screen print of the Edit OIG Error Screen if the provider type is an ‘Individual’:

Screen Print 24: OIG Error Correction Edit Record (O003) – Individual Provider

The screenshot displays the Medicare Exclusion Database (MED) interface for editing an OIG Error record for an individual provider. The header includes the CMS logo and navigation links. The main form contains the following fields:

The following is the screen print of the Edit OIG Error Screen if the provider type is a ‘Business’:

Screen Print 25: OIG Error Correction Edit Record (O003) – Business Provider

The details of all the fields are explained in the following table:

Table 9: OIG Error Correction Edit Provider Record - Field Values

Field	Editable / Non-Editable	Input Value	Comments
Load ID	Non-Editable	N/A	Load ID is system generated and not editable.
Provider Type	Non-Editable	N/A	Internal ID used to identify OIG providers.
Business Name	Editable	Alphanumeric, 20 characters maximum	Enter the Business name of the provider. Maximum 20 characters in length. This field is available only if the provider type is 'Business'.
Last Name	Editable	Alphanumeric, 20 characters maximum	Enter the last name of the provider. Maximum 20 characters in length. This field is available only if the provider type is 'Individual'.

Field	Editable / Non-Editable	Input Value	Comments
First Name	Editable	Alphanumeric, 15 characters maximum	<p>Enter the first name of the provider. Maximum 15 characters in length.</p> <p>This field is available only if the provider type is 'Individual'.</p>
Middle	Editable	Alphanumeric, 15 character maximum	<p>Enter the middle name of the provider. Maximum 15 characters in length.</p> <p>This field is available only if the provider type is 'Individual'.</p>
SSN	Editable	Numeric Only, 9 digits	<p>Enter 9-digit number for SSN. Enter the number in the "nnnnnnnnn" format without any special character or spaces.</p> <p>This field is available only if the provider type is 'Individual'.</p>
EIN	Editable	Numeric Only, 9 digits	<p>Enter 9-digit number for EIN. Enter the number in the "nnnnnnnnn" format without any special character or spaces.</p> <p>This field is available only if the provider type is 'Business'.</p>
Date of Birth	Editable	<p>Day – 2 digit numeric Month – Drop down list Year – 4 digit numeric</p> <p>Additionally, the Calendar button can be clicked to select the date.</p>	<p>Enter date of birth of the provider. Click on the calendar button for popup calendar.</p> <p>This field is available only if the provider type is 'Individual'.</p>
Specialty Description	Editable	Drop down menu	Select the "General Description" of the provider's service from the drop down list.
Sub-Specialty Description	Editable	Drop down menu	Select the "Sub-Specialties Description" of the provider's service from the drop down list.

Field	Editable / Non-Editable	Input Value	Comments
Address	Editable	Alphanumeric, 150 characters maximum	Enter the building number and street name. Also provide the unit number if applicable.
City	Editable	Alphanumeric, 20 characters maximum	Enter City.
State	Editable	Drop down selection	Select state from drop down menu.
Zip	Editable	Numeric, 9 digits maximum	Enter the 5 or 9 digit zip code.
NPI	Editable	Numeric, 10 digit maximum, no special chars allowed	Enter 10-digit number for NPI. Please enter the number in the "nnnnnnnnnn" format without any special character or spaces.
UPIN	Editable	Alphanumeric, 6 characters maximum	Enter the "UPIN" value for the provider. Enter alpha-numeric characters, maximum of 6 characters.
Sanction Type	Editable	Drop down menu	Select the Sanction Type from the drop down menu.
Sanction Date	Editable	Day – 2 digit numeric Month – Drop down list Year – 4 digit numeric Additionally, the Calendar button can be clicked to select the date.	Enter/Edit the Sanction date of the provider. Click on the calendar button for popup calendar.
Reinstatement Date	Editable	Day – 2 digit numeric Month – Drop down list Year – 4 digit numeric Additionally, the Calendar button can be clicked to select the date.	Enter/Edit the Reinstatement date of the provider. Click on the calendar button for popup calendar.

After updating the fields, click on the **Save** button to save the changed values or **Cancel** button to return to the previous screen without making any changes.

5.6 Possible Match

The **Possible Match** functionality provides the MED Power users and Admin users with a list of OIG records that do not match directly with any of the existing provider records. The MED application uses a fuzzy logic to identify a possible match between the new record and the existing records. The lists of possible match records are presented to the user to view and/or validate the match. The following sections explain various functions of the ‘Possible Match’.

5.6.1 Possible Match List – (PM01)

The **Possible Match Screen (PM01)** is the default page displayed when the user clicks on the menu **Possible Match**. The page displays list of records not loaded into the database and have a possible match with one of the existing records.

The following is the screen print for the possible match screen print:

Screen Print 26 - Possible Match Record List Screen (PM01)

Load ID↑	Provider Type	Provider Name	Provider Identifier	Date Of Birth	City	State	Zip	NPI	Match Count	Action
1001	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse
1002	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse
1003	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse
1004	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse
1005	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse
1006	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse
1007	PROFESSIONAL	WAGNER, WENDY	0000001	06/1/1950	WAGNERVILLE	VT	0547		1	Edit Browse

The provider records are displayed in the tabular format. Each possible match represents a row in the table and various details of the provider record are shown as columns. The details of provider shown in the columns are *Load ID, Provider Type, Provider Identifier, Date of Birth, City, State, Zip, NPI, Match Count and Action*.

The user can click on **Browse** button to view the comparison of the possible match records or can click on **Edit** button to view the possible match comparison and confirm that there is a match.

5.6.2 Browse Record – (PM02)

When a user clicks on the **Browse** button on the **Possible Match Screen (PM01)**, the Provider details of the match between OIG and MED database are shown for comparison.

The following is the screen print of a Browse Possible Match record.

Screen Print 27 - Possible Match - View only screen (PM02)

The user can click on the **Cancel** button to return to the possible match list page or click on **Match** button to confirm the match between the two databases.

5.7 Administration

The Administration menu provides the users with various MED online application administration options. The Regular and Power users can view various types of codes. The Admin users can view, edit or add various codes. The administration section also allows the Admin users to view all the audit activity on MED records

5.7.1 Sanctions Codes

The **Sanctions Codes** page displays list of Sanction codes and descriptions that correspond to various sanctions. Each sanction description relates to a possible sanction that can be applied to a provider.

The MED online application allows the Admin users to view or edit ‘Sanction Description’ or add a new ‘Sanction Code’ and ‘Sanction Description’.

5.7.1.1 View Sanction Codes (SN01)

When a user clicks on **Administration** menu, the **Sanction Code List Screen (SN01)** is displayed by default.

The following is the screen print of Sanction codes as displayed to the Regular and Power users. These users are only allowed to view the sanction codes and description.

Screen Print 29: Sanction Code List Screen (SN01)

Sanction Code	Description
1128Aa	(FORMERLY 1128(C))-IMPOSITION OF A CIVIL MONEY PENALTY OR ASSESSMENT
1128a1	PROGRAM-RELATED CONVICTION
1128a2	CONVICTION RELATING TO PATIENT ABUSE OR NEGLEC
1128a3	FELONY CONVICTION RELATING TO HEALTH CARE FRAUD
1128a4	FELONY CONVICTION RELATING TO CONTROLLED SUBSTANCE VIOLATION
1128b1	CONVICTION RELATING TO FRAUD
1128b10	FAILURE TO SUPPLY REQUESTED INFORMATION ON SUBCONTRACTORS AND SUPPLIERS
1128b11	FAILURE TO PROVIDE PAYMENT INFORMATION
1128b12	FAILURE TO GRANT IMMEDIATE ACCESS
1128b13	FAILURE TO TAKE CORRECTIVE ACTION

The MED application allows the Admin user to edit the existing sanction entry or add a new sanction code.

Below is the screen print of the **Sanction Code List Screen (SN01)** as visible to the Admin users.

Screen Print 30: Sanction Codes List Screen (SN01) – MED-ADMIN

Sanction Code	Description	Action
1128Aa	(FORMERLY 1128(C))-IMPOSITION OF A CIVIL MONEY PENALTY OR ASSESSMENT	Edit
1128a1	PROGRAM-RELATED CONVICTION	Edit
1128a2	CONVICTION RELATING TO PATIENT ABUSE OR NEGLEC	Edit
1128a3	FELONY CONVICTION RELATING TO HEALTH CARE FRAUD	Edit
1128a4	FELONY CONVICTION RELATING TO CONTROLLED SUBSTANCE VIOLATION	Edit
1128b1	CONVICTION RELATING TO FRAUD	Edit
1128b10	FAILURE TO SUPPLY REQUESTED INFORMATION ON SUBCONTRACTORS AND SUPPLIERS	Edit
1128b11	FAILURE TO PROVIDE PAYMENT INFORMATION	Edit
1128b12	FAILURE TO GRANT IMMEDIATE ACCESS	Edit
1128b13	FAILURE TO TAKE CORRECTIVE ACTION	Edit

Notice that the Admin users have **Edit** and **Add** buttons.

5.7.1.2 Edit Sanction Codes (SN02)

The **Sanction Code Edit Screen (SN02)** is displayed when the Admin user clicks on the **Edit** button on the sanction code list screen.

The following is the screen print of sanction code edit screen.

Screen Print 31: Edit Sanction Code (SN02)

The fields values displayed on the screen are explained in the following table:

Table 10: Edit Sanction Code - Field Values

Field Name	Editable / Not-Editable	Input Value
Sanction Code	Not-Editable	N/A
Sanction Description	Editable	Accepts alphanumeric characters, 150 characters maximum

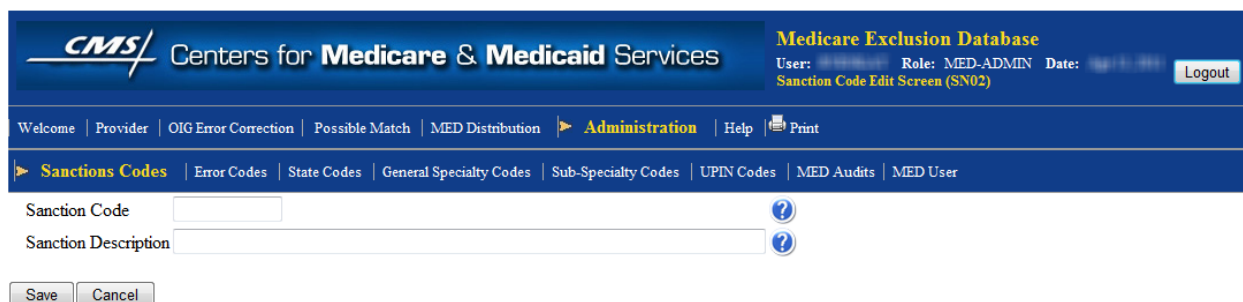

After updating the **Sanction Description**, click the **Save** button to save the updated sanction description or click the **Cancel** button to discard the changes and return to the previous screen.

5.7.1.3 Add Sanction Code (SN02)

The **Sanction Code Edit Screen (SN02)** to add new sanction entry is displayed when the Admin user clicks on the **Add** button on the sanction code list screen.

The following is the screen print of sanction code edit screen to add new entry.

Screen Print 32 - Add Sanction Code (SN02)

The fields values displayed on the screen are explained in the following table:

Table 11: Add Sanction Code – Field Values

Field Name	Editable / Not-Editable	Input Value
Sanction Code	Editable	Alphanumeric characters, 20 characters maximum
Sanction Description	Editable	Alphanumeric characters, 30 characters maximum

After updating the **Sanction Code** and **Sanction Description**, click the **Save** button to save to add new sanction entry to the database or click the **Cancel** button to discard the changes and return to the previous screen.

5.7.2 Error Codes

The Error Codes uniquely identifies the error description for the errors that may occur when loading the OIG data.

The MED online application provides the user to view, edit or add error codes and error codes descriptions and codes.

5.7.2.1 View Error Codes (ER01) – MED-ADMIN Only

When an Admin user clicks on **Error Codes** menu, the **Error Code List Screen (ER01)** is displayed. This menu and access to the page is available only to the Admin users and not available to Regular or Power users.

The following is the screen print of Error codes as displayed.

Screen Print 33: Error Code List Screen (ER01)

Error Code	Description	Action
DBERR	Database Error	Edit
ER0001	Business Name and Individual Name Blank	Edit
ER0002	Business Name and Individual Name are Populated	Edit
ER0003	Invalid Sanction Date	Edit
ER0004	Invalid Reinstatement Date	Edit
ER0005	Reinstatement Date Less than Sanction Date	Edit
ER0006	Invalid Specialty	Edit
ER0007	Invalid UPIN	Edit
ER0008	Invalid Birthdate	Edit
ER0009	Doctor Younger than 25 Yrs. Old	Edit

When on this screen, Admin user can click on the **Edit** button to edit the Error Code description or click on the **Add** button to add a new Error code description.

5.7.2.2 Edit Error Codes – (ER02)

The **Error Code Edit Screen (ER02)** is displayed when the Admin user clicks on the **Edit** button on the error codes list screen.

The following is the screen print of sanction code edit screen.

Screen Print 34: Edit Error Code

The fields values displayed on the screen are explained in the following table:

Table 12: Edit Error Code - Field Values

Field Name	Editable / Not-Editable	Input Value
Error Code	Not-Editable	N/A
Error Description	Editable	Accepts alphanumeric characters, 150 characters maximum

After updating the **Error Description**, click the **Save** button to save the updated Error Description or click the **Cancel** button to discard the changes and return to the previous screen.

5.7.2.3 Add Error Codes – (ER02)

The **Error Code Edit Screen (ER02)** to add new sanction entry is displayed when the Admin user clicks on the **Add** button on the sanction code list screen.

The following is the screen print of sanction code edit screen to add new entry.

Screen Print 35: Add Error Code (ER02)

The fields values displayed on the screen are explained in the following table:

Table 13: Add Error Code – Field Values

Field Name	Editable / Not-Editable	Input Value
Error Code	Editable	Alphanumeric characters, 20 characters maximum
Error Description	Editable	Alphanumeric characters, 150 characters maximum

After updating the **Sanction Code** and **Sanction Description**, click the **Save** button to save to add new sanction entry to the database or click the **Cancel** button to discard the changes and return to the previous screen.

5.7.3 State Codes

The State Codes uniquely identifies the states in the USA and is used to identify the state where the provider operates.

The MED online application allowsthe user to view, edit or add State codes and descriptions.

5.7.3.1 View State Code (ST01)

When a user clicks on **State Codes** menu, the **State Code List Screen (ST01)** is displayed by default.

The following is the screen print of State codes as displayed to the Regular and Power users. These users are only allowed to view the sanction codes.

Screen Print 36: State Codes List Screen (ST01) – MED-USER and MED-POWERUSER

State Code	Description
AK	Alaska
AL	Alabama
AR	Arkansas
AZ	Arizona
CA	California
CO	Colorado
CT	Connecticut
DC	District of Columbia
DE	Delaware
FL	Florida

The MED application provides the Admin user to edit the existing State entry or add a new State code.

Medicare Exclusion Database (MED)

Below is the screen print of the [State Code List Screen \(SN01\)](#) as visible to the Admin users.

5.7.5.3 Add Sub Specialty Codes (SP01)

The [Sub-Specialty Code Edit Screen \(GN02\)](#) to add new sub-specialty entry is displayed when the Admin user clicks on the **Add** button on the Sub-Specialties code list screen.

The following is the screen print of Sub-Specialties code edit screen to add new entry.

Screen Print 47: Add Sub-Specialty Code (SP02)

The fields values displayed on the screen are explained in the following table:

Table 19: Add Sub-Specialty Codes - Field Values

Field Name	Editable / Not-Editable	Input Value
Sub Specialty Code	Editable	Alphanumeric characters, 20 characters maximum
Sub Specialty Description	Editable	Alphanumeric characters, 150 characters maximum

After updating the **Sub Specialty Code** and **Sub Specialty Description**, click the **Save** button to save to add new Sub-Specialty entry to the database or click the **Cancel** button to discard the changes and return to the previous screen.

5.7.6 UPIN Codes

The UPIN Codes uniquely identifies the description of the UPIN of the provider. Each Sub-Specialty description relates to the Sub-Specialty of the provider.

The MED online application allows the user to view, edit or add the Sub-Specialty descriptions and codes to identify them.

5.7.6.1 View UPIN Codes (UP01)

When a user clicks on **UPIN Codes** menu, the **UPIN Code List Screen (UP01)** is displayed.

The following is the screen print of UPIN codes as displayed to the Regular and Power users. These users are only allowed to view the general specialty codes and description.

Screen Print 48: UPIN Code List Screen (UP01)

UPIN Code	Description
A	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
B	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
C	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
D	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
E	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
F	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
G	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
H	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
I	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC
J	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC

The MED application allows the Admin user to edit the existing UPIN code entry or add a new UPIN code.

Below is the screen print of the **UPIN Code List Screen (UP01)** as visible to the Admin users.

Screen Print 49: UPIN Code List Screen (UP01) - MED-ADMIN

The header features the CMS logo and 'Centers for Medicare & Medicaid Services'. It includes the title 'Medicare Exclusion Database' and user details: 'User: [redacted] Role: MED-ADMIN Date: [redacted]'. A 'Logout' button is present. The navigation menu includes: Welcome, Provider, OIG Error Correction, Possible Match, MED Distribution, Administration (highlighted), Help, and Print. A secondary menu includes: Sanctions Codes, Error Codes, State Codes, General Specialty Codes, Sub-Specialty Codes, UPIN Codes (highlighted), MED Audits, and MED User.

Page Size

1 - 10 of 19

UPIN Code	Description	Action
A	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
B	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
C	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
D	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
E	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
F	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
G	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
H	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
I	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>
J	MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC	<input type="button" value="Edit"/>

Notice that the Admin users have **Edit** and **Add** buttons.

5.7.6.2 Edit UPIN Codes (UP02)

The **UPIN Code Edit Screen (UP02)** is displayed when the Admin user clicks on the **Edit** button on the Sub-Specialty code list screen.

The following is the screen print of UPIN code edit screen.

Screen Print 50: UPIN Code Edit Screen (UP02)

The screenshot shows the 'UPIN Code Edit Screen (UP02)'. It includes the same CMS header as the previous screen. Below the header, there are two input fields: 'UPIN Code' with the value 'A' and 'UPIN Description' with the value 'MEDICAL DOCTORS/DOCTOR OF OSTEOPATHIC'. A help icon (?) is next to the description field. At the bottom, there are 'Save' and 'Cancel' buttons.

The fields values displayed on the screen are explained in the following table:

Table 20: UPIN Code Edit Screen - Field Values

Field Name	Editable / Not-Editable	Input Value
------------	-------------------------	-------------

UPIN Code	Not-Editable	N/A
UPIN Description	Editable	Accepts alphanumeric characters, 150 characters maximum

5.7.6.3 Add UPIN Codes (UP02)

The **UPIN Code Edit Screen (GN02)** to add new UPIN entry is displayed when the Admin user clicks on the **Add** button on the Sub-Specialties code list screen.

The following is the screen print of UPIN code edit screen to add new entry.

Screen Print 51: Add UPIN Codes Screen (UP02)

The fields values displayed on the screen are explained in the following table:

Table 21: Add UPIN Codes - Field Values

Field Name	Editable / Not-Editable	Input Value
UPIN Code	Editable	Alphanumeric characters, 20 characters maximum
UPIN Description	Editable	Alphanumeric characters, 150 characters maximum

After updating the **UPIN Code** and **UPIN Description**, click the **Save** button to save to add new UPIN entry to the database or click the **Cancel** button to discard the changes and return to the previous screen.

5.7.7 MED Audits

The MED Audits section of the application allows the Admin users to view all the changes performed on the Provider’s record by any user. The **MED Audits screen (AU01)** is displayed when the Admin user clicks on the link **Administration** → **MED Audits**

The following is the screen print of MED Audits.

Screen Print 52: MED Audits Screen (AU01)

Process Owner	Record ID	Field Name	Old Data	New Data	Updated On	Updated By
OIG	111	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 22:49	11781601
OIG	112	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 20:44	11781601
OIG	113	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 18:59	11781601
OIG	114	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 18:58	11781601
OIG	115	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 18:50	11781601
OIG	116	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 18:29	11781601
OIG	117	BIRTH_DT	XXXXXX	XXXXXX	04/13/2011 06:51	11781601
OIG	118	STR_ADDR	XXXXXXXXXXXXXXXXXXXX	XXXXXXXXXXXXXXXXXXXX	04/13/2011 06:51	11781601
OIG	119	SSN_ID	XXXXXXXX	XXXXXXXX	04/13/2011 06:50	11781601
OIG	120	FST_NM	XXXXXXXX	XXXXXXXX	04/13/2011 06:50	11781601

The following information is displayed about each audit record:

- **Process Owner:** Owner of the process
- **Record ID:** Unique ID number that identifies the provider whose record is being changed
- **Field Name:** ID of the field that has been changed
- **Old Data:** Old value of the field
- **New Data:** New value of the field
- **Updated On:** Date when the record was updated
- **Updated by:** User ID of the person who made the change

The MED Audits section does not allow any action other than to view the history of changes that were performed on the provider’s record.

5.7.8 MED Users

The MED Users section of the MED online application allows the Admin users to maintain certain information about the users of the application. The actual user accounts are created in the IACS system but this function as part of the MED application allows the Admin User to assign additional details.

5.7.8.1 View MED Users (U001)

When a user clicks on **MED Users** menu, the **MED User Screen (U001)** is displayed. The MED user screen displays all the system users by default along with a search form to quickly search for specific users.

The following is the screen print of MED users list screen.

Screen Print 53: MED User List Screen (U001)

The following table provides the details about the search fields:

Table 22: MED User Search – Field Values

Field	Input / Limitation	Optional / Required	Description
User ID	Alphanumeric value	Optional	Enter the full or partial (initial characters) User ID of the MED online user.
Last Name	Alphanumeric value	Optional	Enter the full or partial (initial characters) name of the user’s Last Name

After entering the search criteria, clicking the **Filter** button will display the user records that match the search criteria.

The **MED User Screen (U001)** by default displays all the user records in a tabular format where rows represent a unique user record and columns provide the details of the record. The following are the columns are shown on this screen.

- **User ID:** User login ID of the MED online application users
- **User Name:** Full name of the user (Last name, First name)
- **Email:** Email ID of the user
- **Business:** Name of the company to which the user belongs
- **Phone:** Phone number of the user
- **Role:** Role assigned to the user

Medicare Exclusion Database (MED)

- **Active:** Indicates whether user is active or not

The last column called **Action** in each row provides an **Edit** button to modify certain user information as described in the following section.

5.7.8.2 Edit MED Users (U002)

The **MED User Edit Screen (U002)** is displayed when the admin user clicks on the **Edit** button on the MED users screen. The application page allows the Admin users to modify certain information about the MED online users.

The following is the screen print of the MED user edit.

Screen Print 54: Edit MED User (U002)

The fields values displayed on the screen are explained in the following table:

Table 23: Edit MED Users - Field Values

Field Name	Editable / Not-Editable	Input Value
User ID	Non-Editable Field	N/A
Active	Non-Editable Field	N/A
Role	Non-Editable MED Online Application	N/A
First Name	Editable	Alpha numeric, 35 characters maximum
Last Name	Editable	35 characters maximum
Business	Editable	Alpha numeric, 50 characters maximum
Email	Editable	50 characters maximum
Phone	Editable	Numeric with special characters, 20 character maximum

After updating the user information, click the **Save** button to save the updated user information or click the **Cancel** button to discard the changes and return to the previous screen.

6. TROUBLESHOOTING & SUPPORT

6.1. Error Messages

If during the usage of MED online application, a user sees following error message:

“An application error has been detected”

Please contact the system administrators with the following information:

- User ID of the user
- Date and time when the error message was displayed
- Application screen name if possible
- Comments: Any additional information to explain the scenario and how the user was using the system.

6.2. Support

MED first level user support and problem reporting is handled by EUS. The website and FAQ can be found in EUS website <http://www.eushelpdesk.com/>. They handle issues like:

- IACS Registration Issues
- Username Issues
- Password Resets
- System latency issues

For all MED online application/data related issues, please contact the MED Support Staff.

Table 21: Points of Contact

Contact	Organization	Phone	Email
EUS Help desk	CGI	(866) 484-8049 TTY/TDD# (866) 523-4759 Hours: Monday-Friday, 7am-7pm EST	EUSSupport@cgi.com
MED Support Staff	CORMAC Corp	Not Available	med@cormac-corp.com

7. GLOSSARY

Application

Application refers to MED Online Application. Occasionally it is also referred as MED application or online application.

Error Count

Number of errors that are associated with the OIG provider in case of errors/warnings

General Description

General specialty of the provider

LOAD ID

Unique ID used to identify OIG providers

Match Count

When there is a 'Possible Match', the count identifies how many possible MED providers match with records in OIG provider

MED ID

Unique ID used in MED to identify providers

OIG Error Type

Error type associated with the provider records in the OIG error section

OIG Error Status

The error status of the provider record with possible values of being either corrected or uncorrected

Provider Type

This is the type of provider who provides the service. It is either an Individual or a Business

Provider Identifier

Provider Identifier refers to is either Employee Identification Number (EIN) or Social Security Number (SSN).

Reinstatement Date

Date on which a reinstatement has been applied to the provider

Sanction Type

Sanction type for a provider means if there is an active sanction or if there are any reinstatements applied to the provider. ‘Active’ sanction type for a provider will have at least one sanction that has no reinstatement.

Sanction Date

Date on which a sanction has been applied to the provider

Sub-Specialty

Sub- Specialty of the provider

User

The term ‘user’ refers to any person who has access to the MED online application and has privileges to access the specific functionality. If the function is limited to a specific type of user, then it is explicitly mentioned.

8. ACRONYMS

EIN	Employee Identification Number
IACS	Individuals Authorized Access to the CMS Computer Services
MED	Medicare Exclusion Database
NPI	National Provider Identifier
NSC	National Supplier Clearinghouse
OIG	Office of Inspector General
OSCAR	Online Survey Certification and Reporting System
SSN	Social Security Number
UPIN	Unique Physician Identification Number

APPENDICES

Appendix A – MED Online Application – Common buttons

The following are common buttons that are used in throughout the MED application. Whenever any of these buttons appear on any screen, their functionality remains the same. The function of the buttons is explained in the following table.

Table 24: Common Buttons on Web Pages

Button	Description
	Clicking this button will cause the application to search for the records based on the search criteria.
	Clicking this button will reset the search criteria by making the field values to their original default value.
	Clicking this button will take to the original search screen. (This button is not same as the ‘Back’ button available on the web browser).
	Clicking this button will cancel any action on the webpage and displays the previous screen.
	Clicking this button will show additional details of the record in ‘Read-Only’ mode
	This button is visible only to the Power Users and the Admin Users. By clicking on the button, the Power/Admin user will be able to various values associated with the record.
	This button is generally displayed on the top-right corner on the search result page. The user can
	The button will take the user screen to first page of the search results. (Note: This button is only visible if the user is viewing records on page 2 or more within the search result).
	The button will take the user screen to previous results page of the search result. (Note: This button is only visible if the user is viewing records on page 2 or more within the search result).
	This button will display the next page of search result. (Applicable when there are more number of records than the off-set limit)
	This button will display the last page of the search result (Applicable when there are more number of records than the off-set limit)
	This is a ‘Tool-Tip’ icon. Its primary purpose is to provide information about the form field, input value and any limitations). This icon is displayed only for those fields that are editable. Therefore, if there is no icon next to the field, then that particular field is not editable even though other fields within the form may be editable.

Appendix B – MED File Creation Utility (MFCU) – Configuration parameters

MED_FCU.ini file contains the configuration information for the MED File Creation utility. Listed below is the content.

```
---- 5 module prefixes (index 0 to 4) <- Please do not change this session
Cum
RCum
Rein
Sanc
NMed
---- Input Files
C:\MED-FCU\Extract\ <- Change the folder if the distribution files from GENTRAN is
downloaded into another folder. The default folder is C:\MED-FCU\Extract\
P.MEDEXC.CUMLTVSN
P.MEDEXC.CUMREIN
P.MEDEXC.REINST
P.MEDEXC.SANCT
P.MEDEXC.NONMED
---- Template Files
C:\MED-FCU\Template\ <- Change this folder if the utility is unzipped in another folder
---- Output Files (Distribution Files)
C:\MED-FCU\Files\ <- Change this folder if the utility is unzipped in another folder
```
