

NOTE: On November 13, 2000, an interim final rule with comment period (IFC) was published in the Federal Register to update the Medicare hospital outpatient prospective payment system (OPPS) for calendar year 2001. The IFC, effective for services beginning on January 1, 2001, updated the conversion factor that is used to calculate OPPS payment rates and the wage index used to adjust payment for geographic wage differences. On December 21, 2000, the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (BIPA) was enacted. Section 401 of BIPA provides a full market basket update for services furnished during calendar year 2001. The payment rates in this spreadsheet reflect the 0.32 percent increase required by BIPA. Some coinsurance amounts also changed. In addition, the national coinsurance amounts are consistent with section 111 of BIPA, which requires that the national unadjusted coinsurance for procedures performed in 2001 not exceed 57 percent of the total payment rate for the procedure. The payment rates, national unadjusted coinsurance amounts, and minimum unadjusted coinsurance amounts shown in this spreadsheet apply to services furnished beginning April 1, 2001 through December 31, 2001.

NOTE: Program Memorandum A-01-40 contained an inadvertent error by listing the oral anti-cancer drug Lomustine as eligible for pass-through drug payment effective April 1, 2001. Medicare does not cover Lomustine. Steps are being taken to update claims processing systems accordingly.

Addendum A. - Update of Calendar Year 2001 Hospital Outpatient Payment Rates and Coinsurance Amounts Effective April 1, 2001

APC	Group Title	Status Indicator	Relative Weight	Payment Rate	National Unadjusted Coinsurance	Minimum Unadjusted Coinsurance
