I. Introduction

In fall 2015, the Centers for Medicare and Medicaid Services (CMS) made available the 2014 Supplemental Quality and Resource Use Reports (QRURs) to every group practice and solo practitioner nationwide, as identified by their Medicare-enrolled Tax Identification Number (TIN), with information on the management of their Medicare Fee-For-Service (FFS) patients based on episodes of care ("episodes").

The performance period for the 2014 Supplemental QRURs is January 1, 2014 through December 31, 2014. The Supplemental QRURs are confidential feedback reports provided to medical group practices and solo practices to show payment-standardized, risk-adjusted cost information on the management of their Medicare FFS patients based on episodes of care. The Supplemental QRURs are currently for informational purposes only and complement the per capita cost and quality information provided in the QRURs. More information about the 2014 Supplemental QRURs is available at https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/Episode-Costs-and-Medicare-Episode-Grouper.html.

The 2014 Supplemental QRURs and the Drill Down Tables can be downloaded and exported to PDF and Excel format, respectively. This Access Guide illustrates how to access and download the 2014 Supplemental QRURs and Drill Down Tables from the CMS Enterprise Portal.

II. Getting Started

Authorized representatives of groups and solo practitioners can access the 2014 Supplemental QRURs at <u>https://portal.cms.gov</u> using an Enterprise Identify Management (EIDM) account with one of the following roles:

- For a group with 2 or more eligible professionals (EPs) (TIN with 2 or more National Provider Identifiers (NPIs) that bill under the TIN):
 - o Security Official
 - Group Representative
- > For a solo practitioner (TIN with only 1 NPI that bills under the TIN):
 - o Individual Practitioner
 - o Individual Practitioner Representative

Instructions for obtaining an EIDM account to access the 2014 Supplemental QRURs are available at http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/Obtain-2013-QRUR.html.

- If a group has already accessed its 2014 Annual QRUR, then that same person who accessed the Annual QRUR can access the group's Supplemental QRURs using their EIDM User ID and password.
- If a group or solo practitioner does not have an authorized representative with an EIDM account with the correct role, then one person representing the group or solo practitioner must sign up for an EIDM account with the Security Official role (if representing a group) or the Individual Practitioner role (if representing a solo practitioner).

If you have questions about the 2014 Supplemental QRURs and Drill Down Tables, or need assistance accessing any of the reports, please contact the Physician Value Help Desk by phone at 1-888-734-6433 (press option 3). Normal business hours are Monday-Friday from 8 am to 8 pm EST.

If a group or a solo practitioner has a representative with an existing EIDM account, but not one of the group-specific (if representing a group) or individual-specific (if representing a solo practitioner) roles listed above, then ensure that the account is still active and then add a role to that person's existing EIDM account. To ensure the EIDM account is still active, please contact the QualityNet Help Desk.

III. <u>Questions</u>

For questions about setting up an EIDM account, please contact the QualityNet Help Desk:

- Monday Friday: 8:00 am 8:00 pm EST
- Phone: (866) 288-8912 (TTY (877) 715-6222)
- Fax: (888) 329-7377
- Email: <u>qnetsupport@hcqis.org</u>

To find out whether there is already someone who can access your TIN's Supplemental QRUR, please contact the QualityNet Help Desk and provide your TIN and the name of your group (or your name, if you are a solo practitioner).

For questions about information contained in your 2014 Supplemental QRUR or to provide feedback to CMS, please contact the Physician Value Help Desk:

- Monday Friday: 8:00 am 8:00 pm EST
- (888) 734-6433 (press option 3); (TTY (888) 734-6563)
- Email: <u>pvhelpdesk@cms.hhs.gov</u>

If you have questions about the 2014 Supplemental QRURs and Drill Down Tables, or need assistance accessing any of the reports, please contact the Physician Value Help Desk by phone at 1-888-734-6433 (press option 3). Normal business hours are Monday-Friday from 8 am to 8 pm EST.

V. Access the 2014 Supplemental QRUR

There are two ways to access the **Supplemental QRUR.** The user may choose one of the following:

- Physician Value (PV) Landing Portlet (see pages 4-10)
- Directly from the CMS Enterprise Portal (see pages 11-13)

A. How to Access Supplemental QRURs via the PV Landing Portlet

In addition to accessing the Supplemental QRUR, the PV Landing Portlet will also allow users to view the information related to PV, and access other PV applications.

Steps	Screenshots
 Go to <u>https://portal.cms.gov</u> and select <i>Get Started</i> in the <i>Physician Value</i> box on the CMS Enterprise Portal. 	Physician Value The Physician Value portlet allows eligible professionals to:

 Introduction tab to view the following information: About the Data in this Report Episode Construction Payment Standardization and Risk Adjustment Attribution More Information 	Overview Introduction Exhibit_1 Exhibit_2 Exhibit_3 Exhibit_4A Exhibit_4B Exhibit_4C ABOUT THE DATA IN THIS REPORT ABOUT THE DATA IN THIS REPORT The 2014 Supplemental QRURs provide actionable and transparent information on episodes to assist medical group practices and solo practices in improving their practice efficiency and care coordination. These reports are for informational purposes only. The introduction presented here provides a summary of key information needed to understand the reports. The final section describes where to find more information on the episode and report methodology. An episode is a resource use measure that includes the set of services provided to diagnose, treat, manage, and follow-up on a specified clinical condition. The episode measures in the 2014 Supplemental QRURs allow for comparison between providers because they are created through the following steps: i) begin an episode and include, or "group," subsequent services during a specified time period only if they are clinically related to treatment of the episode; ii) use payment standardization and risk adjustment to remove differences in Medicare payment policy and patient health status that can affect episode costs that are outside the control of the provider star are most involved in managing the episode. The remainder of this introduction describes each of the three steps in turn. EPISODE CONSTRUCTION Episodes are opened when specific billing codes on a claim indicate the presence of the episode condition or procedure. Once an episode is opened, episode grouping methodologies implement clinical logic to parse the services pro
b). Select the hyperlinks provided in the More Information section within the Supplemental QRUR to navigate to the designated information or to access external websites. Note: The screenshot illustrates an example of links to external websites. The links that appear in the report are only active while reviewing the report within the MicroStrategy Web Platform .	ATTRIBUTION The 2014 Supplemental QRURs attribute responsibility and report each episode to one or more medical groups or solo practices. A medical group or solo practice is represented by the single TIN under which all physicians in the group or solo practice bill for Medicare services. Within the attributed medical group(s) or solo practice(s), the reports further identify one or more lead eligible professionals (EPs) managing the episode, identified by their National Provider Identifier (NPI). The attribution method is different for acute condition and procedural episodes. Acute condition episodes are attributed to the medical group(s) or solo practice(s) that performed at least 30 percent of the inpatient (IP) evaluation and management (E&M) visits during the episode's initial hospitalization. Within each attributed medical group or solo practice, the top three EPs billing the largest number of IP E&M visits during the initial hospitalization are identified in the report. Procedural episodes are attributed to the medical group(s) or solo practice(s) billing for the procedure that opened the episode, and the lead EP is identified in the same way. MORE INFORMATION Complete documentation of the 2014 Supplemental QRURs can be found in the Detailed Methods document and associated files at http://www.cms.gov/Medicare-Medicare-Fee-for-Service-Payment (PhysicianFeedbackProgram/Episode-Costa-and-Medicare-Episode-Grouper.html. For questions about your report, please contact the Physician Value (PV) Helpdesk at 888-734-6433 (option 3), between SAM and SPM ET, Monday through Friday. To submit written comments and suggestions on the Supplemental QRURs, please send an email to <u>prhelpdesk@cms.hts.gov</u>

If you have questions about the 2014 Supplemental QRURs and Drill Down Tables, or need assistance accessing any of the reports, please contact the Physician Value Help Desk by phone at 1-888-734-6433 (press option 3). Normal business hours are Monday-Friday from 8 am to 8 pm EST.

3.

The selected 2014 Supplemental QRURs Drill Down Table 2 report is displayed with following

- information: Episode Information
- Beneficiary Information
- Episode Cost Breakdown
- Physician Cost Billed By Your TIN During Episode
- Physician Cost Billed By Other TINs During Episode

Note 1: Due to the spacing limitation, only a sub-section of the screen is shown. Please use the scroll feature in the report to view the full information.

Note 2: The Episode Type displayed on the report will be based on Your TIN and the *Episode Type* selected from the grouping menu.

Note 3: The Grouping menu for **Episode Category** is by default set to Condition Episodes and Episode Type is displayed in alphabetical order based on your TIN.

Note 4: Only the Condition Episodes Types will be displayed in the grouping drop-down menu when Condition Episodes is selected as the Episode Category and the same will apply for the **Procedural** Episodes.

Note 5: Select the cross (†)

This drill down table provides detailed information on physician costs billed by your TIN and other TINs for episodes of this type that were attributed to your TIN. Physician costs are based on all carrier claims (also known as Physician/Supplier Part B claims (PB)). All costs are actual Medicare payment amounts Crosses indicate terms defined through the hover-over function (non-payment standardized and non-risk adjusted) to allow TINs to compare this data to their own records.
