Make a list of questions before it's time to choose your health plan

For example, "Can I stay with my current doctor?" or "Will this plan cover my health costs when I travel?"

You'll need income information from your W-2, pay stubs, or tax return.

The Health Insurance Marketplace®

Health insurance options

The Marketplace helps you find health coverage that fits your budget and meets your needs. When you apply for coverage, you can find out all your options and enroll. You can apply for private insurance, Medicaid, or the Children's Health Insurance Program (CHIP) if eligible.

Every health plan in the Marketplace offers the same set of essential health benefits, like doctor visits, preventive care, hospitalization, prescriptions, and more. You can compare plans based on price, benefits, and other features important to you before you make a choice.

Insurance plans run by private companies

Insurance plans offered through the Marketplace are run by private companies. You can compare your health coverage options in the Marketplace and find out what your premium, deductibles, and out-of-pocket costs will be before you decide to enroll.

There are protections for you and your household. Insurance plans can't deny you coverage because of pre-existing or chronic conditions, like cancer or diabetes, and they can't charge women and men different premiums.

Get help with costs

When you use the Marketplace, you may be able to get the tax credit to lower your monthly premiums and help with your out-of-pocket costs. When you apply, you'll find out how much you can save.
