

Health Family Program/CHIP Regulation¹ Benefits vs. Medi-Cal Dental Services Scope of Benefits

Medi-Cal Dental (Denti-Cal) and CHIP children² dental benefits are considered full scope for eligible individuals; Medi-Cal eligible children are individuals under the age of 21; CHIP eligible children under Medi-Cal are individuals under the age of 19. The criteria for these benefits can be found in the Manual of Criteria on the Denti-Cal website www.denti-cal.ca.gov and medical necessity is a requirement for the provision of the covered benefit.

Under the Medi-Cal program, Early Periodic Screening, Diagnosis and Treatment (EPSDT) are a requirement of covered services for eligible children under the age of 21 who are eligible for full-scope benefits. For purposes of any benefit under Medi-Cal where there is a limitation on the amount, duration or scope of a covered service, if medical necessity is demonstrated, EPSDT requirements can supersede these limitations.

Dental Procedure	CHIP/HFP Regulations 2011-2012	Medi-Cal Dental Program Scope of Benefits 2014-present ³
