

## Long-Term Care Hospital (LTCH) Quality Reporting Program (QRP) Quick Reference Guide

The LTCH QRP creates LTCH quality reporting requirements, as mandated by Section 3004(a) of the Patient Protection and Affordable Care Act (ACA) of 2010. Each year, by October 1, CMS publishes the quality measures an LTCH must report.

LTCHs utilize an instrument to collect patient assessment data for quality measures, called the Continuity Assessment and Evaluation (CARE) Data Set. The current version of the CARE Data Set is version 3.00 (effective April 1, 2016), and can be [downloaded from the CMS website](#). The CARE Data Set must be transmitted to CMS through the Assessment Submission and Processing (ASAP) system to the Quality Improvement Evaluation System (QIES).

In addition to the CARE Data Set, there are National Healthcare Safety Network (NHSN) measures that must be submitted through the [NHSN Portal](#) through the Centers for Disease Control and Prevention (CDC).

If the required quality data is not reported by each designated submission deadline, the LTCH will be subject to a two (2)-percentage point reduction in their annual payment update (APU).

A list of the current LTCH measure for Fiscal Year (FY) 2018 is located on the following page.

### Frequently Asked Questions

*Q: How do I verify my NHSN data submission?*

The best method to verify your current NHSN data submission is by running output reports. Detailed guidance on how to run and interpret NHSN reports, as well as a checklist used to ensure complete reporting into NHSN, can be found on the [CDC home page](#). If you have questions regarding these reports within NHSN, please contact the NHSN Helpdesk: [NHSN@cdc.gov](mailto:NHSN@cdc.gov).

*Q: How do I verify my LTCH CARE/assessment data submission?*

The best method to verify your current LTCH CARE data submission is by running final validation and Assessments with Error Number XXXX reports. Detailed guidance on how to run and interpret LTCH CARE reports can be found in the CASPER Reporting User's Guide, available on the [LTCH User Guides and Training page](#). Select "Section 4 Reports" from the second drop-down box and then select the "Select" option to access the instructions. Another resource is the CASPER Reporting User's Guide, available at the same link. Select Section 3 from the second drop-down box and select "LTCH Assessments with Error Number XXXX" in the table of contents.
