on the
Open Payments Program
April 2019

The Centers for Medicare & Medicaid Services (CMS) strives to make information available to all. Nevertheless, portions of our files including charts, tables, and graphics may be difficult to read using assistive technology.

Persons with disabilities experiencing problems accessing portions of any file should contact CMS through e-mail at 508_Compliance@cms.hhs.gov.

Executive Summary

The Open Payments program is a statutorily-required, national disclosure program that promotes transparency and accountability by making information about the financial relationships between reporting entities¹ and covered recipients² available to the public.

The Open Payments data includes payments and other transfers of value made to covered recipients, along with ownership and investment interests held by physicians or their immediate family members in the reporting entities.

Payments are reported across three major reporting categories:

- General Payments: Payments or other transfers of value made that are not in connection with a research agreement or research protocol.
- Research Payments: Payments or other transfers of value made in connection with a formal research agreement or research protocol.
- Physician Ownership Information: Information about the ownership or investment interests that physicians or their immediate family members have in the reporting entities.

On June 29, 2018, the Centers for Medicare & Medicaid Services (CMS) published Program Year 2017 data, the fourth full year of data reported to Open Payments. In addition to the publication of Program Year 2017 data, all previous years were refreshed and republished³ to reflect any updates made by reporting entities during the 2017 program year cycle.

In Program Year 2017, applicable manufacturers and group purchasing organizations (GPOs) collectively reported \$8.40 billion in payments and ownership and investment interests. These records are comprised of 11.54 million payment records attributable to 628,214 physicians and 1,158 teaching hospitals. Over the course of the Open Payments program, CMS has published 53 million records, accounting for \$33.42 billion in payments and ownership and investment interests.

To encourage timely, complete, and accurate reporting, CMS has the authority to impose civil monetary penalties on entities that are not compliant with the Open Payments requirements. In Program Year 2017, CMS did not impose any civil monetary penalties.

¹ Reporting entities refers to applicable manufacturers and group purchasing organizations (GPOs) required to report payments or transfers of value to covered recipients under the Physician Payment Sunshine Act (42 USC §1320a-7h).

² Covered recipients are any physicians (excluding medical residents) who are not employees of the applicable manufacturer that is reporting the payment; or teaching hospitals that receive payment for Medicare direct graduate medical education (GME), inpatient prospective payment system (IPPS) indirect medical education (IME), or psychiatric hospital IME programs during the last calendar year for which such information is available.

³ Refreshed and republished data includes data corrections made to reported payments since their initial publication of data that were submitted by applicable manufacturers and GPOs.

This report covers program activities that occurred during fiscal year 2018⁴ with a focus on the publication of Program Year 2017 data.

Table 1. Summary of Program Year Data

	2013*	2014	2015	2016	2017
Total Number of Records	4.61 million	12.04 million	12.42 million	12.40 million	11.54 million
Total Value of Payments	\$4.33 billion	\$8.02 billion	\$8.42 billion	\$8.81 billion	\$8.40 billion

*Program Year 2013 was a partial year of data collection (August 2013 – December 2013).

All numbers above 10,000 have been rounded.

⁴ Fiscal year 2018 began on October 1, 2017 and ended on September 30, 2018.

Open Payments Program Overview and Implementation

The Open Payments program is a statutorily-required, national disclosure program that promotes transparency and accountability by making information about the financial relationships between reporting entities and covered recipients available to the public.

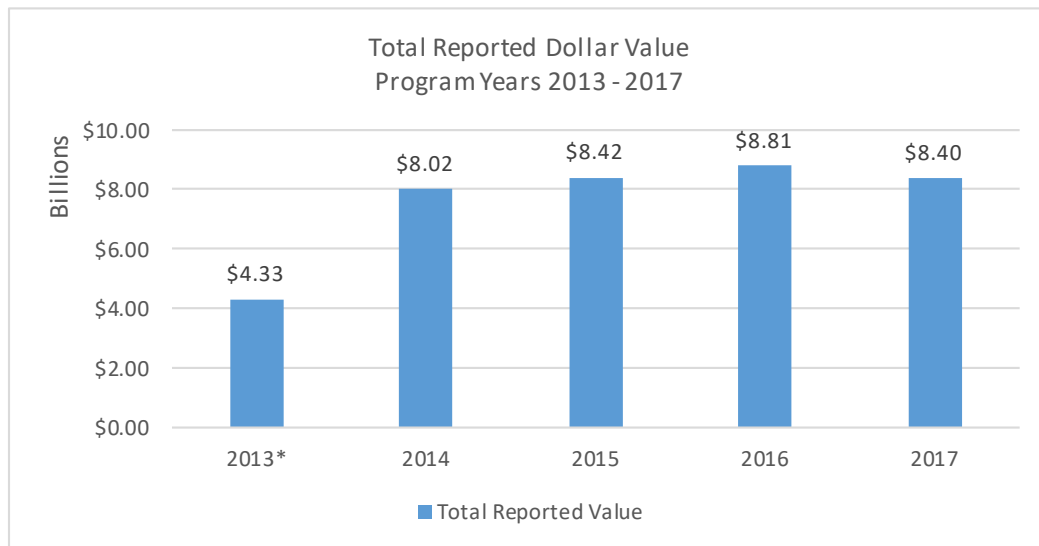

Reporting entities report payments or transfers of value made to covered recipients, and ownership and investment interests held by physicians or their immediate family members in the reporting entities. Payments are reported across three main categories: general payments, research payments, and ownership and investment interests.

- General Payments: Payments or other transfers of value made that are not in connection with a research agreement or research protocol. General payments may include, but are not limited to, honoraria, gifts, meals, consulting fees, and travel compensation. Detailed guidance on reported payment categories is available in the Open Payments Final Rule (CMS, *Transparency Reports and Reporting of Physician Ownership or Investment Interests*, 78 FR 9458, at 9477 (Feb. 8, 2013)) and in regulations at 42 CFR § 403.904.
- Research Payments: Payments or other transfers of value made in connection with a formal research agreement or research protocol.
- Physician Ownership Information: Information about the ownership or investment interests that physicians or their immediate family members have in the reporting entities.

Since the inception of the Open Payments program, reporting entities have cumulatively reported \$33.42 billion⁵ in payments and ownership and investment interests.

⁵ All (cumulative) Open Payments data are calculated by totaling all program years' general payment and research payment values with the current program year's ownership and investment interest values. (Ownership and investment values represent current market value of ownership as of the last feasible valuation across applicable manufacturers and GPOs.)

Figure 1. Total Reported Value of Each Program Year⁶

*Program Year 2013 was a partially reported program year representing data collected from August 2013 to December 2013.

The Secretary of the Department of Health and Human Services (HHS) is required to submit an annual Report to Congress summarizing the information reported to the Open Payments program, aggregated by reporting entities, as well as any penalties imposed by HHS that are directly related to the Open Payments program.

This report summarizes the financial transaction information and provides an overview of key program activities and achievements that occurred in Fiscal Year 2018, with a focus on the most recent Open Payments data publication of Program Year 2017 data.

Program Year 2017

The Open Payments program functions on a yearly cycle consisting of four key activities: (1) Data Collection; (2) Data Submission; (3) Pre-publication Review, Dispute and Correction; and (4) Data Publication. The following is an overview of the Program Year 2017 timeline, projects, and achievements.

1. **Data Collection:** Reporting entities collect data pertaining to payments made to covered recipients from January 1 through December 31 of each year, along with any ownership or investment interests held by physicians or their immediate family members in the reporting entity during that time. Data collection for Program Year 2017 took place from January 1, 2017 to December 31, 2017. On January 1, 2018 reporting entities entered a new program cycle and began collecting data for Program Year 2018.

⁶ Individual program years' Open Payments data are calculated by totaling the individual program year's general payment, research payment, and ownership and investment interest values. (Ownership and investment values represent current market value of ownership as of the last feasible valuation across applicable manufacturers and GPOs.)

2. **Data Submission:** Reporting entities submit the data that they have collected during each program year to the Centers for Medicare & Medicaid Services (CMS). The Program Year 2017 data submission period was February 1, 2018 through March 31, 2018.
3. **Pre-publication Review, Dispute, and Correction of Data:** Prior to data publication, covered recipients are provided an opportunity to review the payments and other transfers of value that have been attributed to them. If they believe a record is inaccurate or incomplete, they may initiate a dispute and work directly with the reporting entity to correct the record. Although covered recipient review of the data is voluntary, CMS encourages data review in an effort to ensure accuracy. The review and dispute period for Program Year 2017 data began on April 1, 2018 and was available through May 15, 2018.

Reporting entities have an additional 15-day correction period to correct any disputed records to ensure they are able to accurately respond to inquiries or disputes initiated during the review and dispute period, and make any necessary updates prior to the annual data publication. This additional 15-day correction period continued through May 30, 2018.

Covered recipients may review the data through the end of the calendar year in which it is initially published and, if necessary, dispute payments they believe to be inaccurately reported. The pre-publication review, dispute, and correction period provides an opportunity for data to be reviewed and if necessary changed prior to its initial publication.

4. **Data Publication:** CMS publishes the data annually on or by June 30th. The data is displayed on the CMS public website at <https://openpaymentsdata.cms.gov>. On June 29, 2018 CMS published Program Year 2017 data along with the refreshed data⁷ from previous program years (2013 – 2016).

Figure 2 provides a visual of the Open Payments Program Cycle.

Figure 2. Overview for the Process of Open Payments

⁷ Refreshed and republished data includes data corrections submitted by applicable manufacturers and GPOs since their initial publication of data.

In Program Year 2017, reporting entities attributed \$8.40 billion in payments and ownership and investment interests made to covered recipients. This amount is comprised of 11.54 million total records attributable to 628,214 physicians and 1,158 teaching hospitals.

Payments in the three major reporting categories were:

- \$2.82 billion in general payments;
- \$4.66 billion in research payments; and
- \$927 million of ownership or investment interests held by physicians or their immediate family members.

Over the course of the Open Payments program, CMS has published 53.00 million records, accounting for \$33.42 billion in payments and ownership and investment interests.

Table 2 outlines the cumulative reported value by individualized Program Year data.

Table 2. Summary of Open Payments Data - All Program Years

Reported Metric	Program Year				
	2013*	2014	2015	2016	2017
Total Dollar Value of Reported Payments	\$4.33 billion	\$8.02 billion	\$8.42 billion	\$8.81 billion	\$8.40 billion
Total Number of Records	4.61 million	12.04 million	12.42 million	12.40 million	11.54 million
Total Number of Reporting Entities	1,428	1,627	1,609	1,600	1,525
Total Number of Physicians with Attributed Data	482,382	625,782	637,235	638,350	628,214
Total Number of Teaching Hospitals with Attributed Data	1,028	1,127	1,119	1,150	1,158

*Program Year 2013 was a partial year of data collection (August 2013 – December 2013).

Engagement and Outreach Efforts

CMS actively engages with program participants in a variety of ways, including electronic listserv distributions, webinars, newsletter distributions, monthly stakeholder calls, working groups, and mail campaigns. During fiscal year 2018, the Open Payments team utilized these forms of communication to strategically promote the program.

- CMS hosted webinars for reporting entities and attended multiple reporting entity focused conferences and working groups. The events provided an opportunity for the Open Payments team to present timely program information and responded to questions that attendees had regarding an array of topics including, but not limited to, reporting requirements, data submission, and review, dispute and correction actions.

- CMS strengthened the relationship with covered recipients in a variety of ways including, but not limited to, listserv distributions, in-person working groups, discussion forums, a National Provider Call, a mail campaign, and personal phone calls. Through these communication channels, CMS educated covered recipients about the Open Payments program and supplied the necessary resources to ensure efficient and effective participation in the program.
- The Open Payments team attended their first teaching hospital-centric conference during which attendees were able to directly connect with representatives of CMS and learn about their opportunities to participate in Open Payments. The Open Payments team also tailored two informational presentations for use by teaching hospitals in an effort to educate covered recipients about the program, their role in the program, and resources available for navigating Open Payments.
- Throughout the course of 2018, CMS maintained regular communication with stakeholders, sending 45 emails to 2.33 million recipients. These emails provided recipients with key program timeline reminders and deadlines, as well as general operational updates. Open Payments emails are distributed via the CMS Open Payments self-subscribe listserv and to Open Payments system users consisting of reporting entities and covered recipients.
- CMS engaged with program participants through social media outlets, tweeting via the official CMS Twitter account (@CMSGov) to remind participants of key timeframes and provide updates on program activities.
- CMS offers an Open Payments Help Desk, which supports the program by responding to program related questions and providing technical assistance. The Help Desk consistently receives positive feedback from those who have utilized it. The chart below outlines the volume the help desk experienced throughout fiscal year 2018

Type of Communication	Total Volume
Inbound Calls ⁸	12,706
Outbound Calls ⁹	4,956
Emails ¹⁰	4,360
All Communication Types	22,022

⁸ Inbound calls refers to incoming calls received at the help desk, i.e., individuals calling the help desk for assistance.

⁹ Outbound calls refers to outgoing calls from the help desk, i.e., members of the help desk conducting calls to assist individuals.

¹⁰ Emails refers to emails received at the help desk inbox (openpayments@cms.hhs.gov).

CMS recognizes the importance of communication with program participants and stakeholders, and works diligently to maintain communication with all parties involved in the Open Payments program. These efforts continue to strengthen the relationship with program participants and positively impact the Open Payments program.

Compliance Initiatives

Throughout Program Year 2017, Open Payments continued compliance efforts focused on improving the timeliness, accuracy, and completeness of the reported data. CMS continued to target potential non-compliant entities through research and data analysis, and conducted outreach to educate reporting entities about the Open Payments reporting requirements and their possible misreporting. The outreaches included repeated efforts based on successes from prior program years and new projects originated from novel data analyses. These efforts resulted in the submission of previously unreported data and the correction of erroneously reported data.

CMS has the authority to impose civil monetary penalties for late, inaccurate, and incomplete reporting. CMS did not impose civil monetary penalties during Program Year 2017.

Open Payments Program Year 2017 Enhancements

During Program Year 2017, various enhancements were implemented to increase usability in both the Open Payments system, as well as the public facing Open Payments website.

Open Payments System Enhancements

Open Payments system enhancements play a vital role in the program as this ensures that program participants' experience in the Open Payments system is as seamless as possible. The following system enhancements were debuted in early 2018 to accompany Program Year 2017 submission activities:

- **Expired Physician License Warning** – the expired physician license warning is a new feature that provides a warning message if a physician license appears to be expired in the year for which a record is submitted.
- **Increased assumptions text character limit** – the assumptions text character limit was increased to 8,000 characters, allowing users to provide more detailed assumptions statements when providing details about their reporting methods.
- **Updated review and dispute screens for covered recipients** – the review and dispute payment records page was updated with a refined record layout and the ability for covered recipients to perform review and dispute activities across all program years in one screen.

- **Other enhancements** – Additional system performance, navigation, and usability enhancements to streamline data submission and review and dispute processes.

Open Payments Search Tool Enhancements

The Open Payments search tool is a crucial piece of the program, as this is the vehicle that provides the public access to the Open Payments data. CMS continues to maintain the search tool and make updates for optimal user experience and accessibility. The following are the notable enhancements to the search tool throughout 2018.

- **Homepage redesign** – the homepage was reformatted with a new look and layout, featuring an updates search bar that allows users to search by physician name as well as teaching hospital and reporting entity. The new layout is designed to better organize existing site contents as well as highlight new pages and additions to site content. See Figure 3.
- **“Facts About Open Payments” page redesign** – the Facts About Open Payments page was redesigned to be more user friendly and include detailed information about the various types of payments included in the data. The different payment types now feature iconography which is carried throughout the full site. See Figure 4.
- **Mobile Responsiveness** – the site was redesigned to be fully mobile responsive for optimal use on a smartphone or tablet. All pages and content like tables, charts, maps, and other graphics were redesigned enabling users to view the site in full on smartphones and tablets.

Appendix A. Aggregate Data by Applicable Manufacturer/Group Purchasing Organization

The aggregated data included in this report contains data from Program Year 2017 on the public display site. This data set has undergone review and dispute for 45-days as per the final rule. As a result, CMS has confidence in the accuracy of the data provided in this Report to Congress. Any data that was found to have inconsistencies regarding the covered recipient of the payment or other transfer of value were rejected at the time of data submission and returned to the industry for correction and resubmission.
