CHANGE REQUEST 2753

CHAPTERS	REVISED SECTIONS	NEW SECTIONS	DELETED SECTIONS
4	70.7.3		

Red italicized font identifies new material.

NEW/REVISED MATERIAL - EFFECTIVE DATE: August 8, 2003

IMPLEMENTATION DATE: August 8, 2003

Medicare contractors only: these instructions should be implemented within your current operating budget.

Section 70.7.3 Intermediary Claims Accounts Receivable (A/R) – adds the option to contact the regional office for guidance when recommending write-off, and deletes the requirement to cease recoupment once the initial demand letter is issued.

70.7.3 - Intermediary Claims Accounts Receivable (A/R) (Rev. 19, 07-25-03)

Intermediary claims A/R arises from adjustments in the intermediary's claim processing systems (this type of adjustment may also be referred to as a carryover adjustment). The adjustments may be the result of duplicative processing of a claim, payment of a claim at the wrong Diagnostic Related Group (DRG) rate, a request from a provider, or for any reason an intermediary adjusts a claim payment. These adjustments are usually recovered through recoupment and the recovered amounts are included in the remittance advices to the providers. If the overpayment has not been recouped, the balance remains outstanding and is reported on the intermediary's financial records.

The CMS has determined that these types of debt are eligible for referral for cross servicing/Treasury Offset Program (TOP). The following outlines procedures for referral/collection/termination of collection action and write-off closed of these debts. Intermediaries will use these procedures to:

- Address the current inventory of intermediary claims A/R.
- Demand and refer delinquent intermediary claims A/R as part of their on-going debt collection procedures.

To identify and address the current inventory of outstanding intermediary claims A/R and to identify, on an ongoing basis, claims A/R to be demanded or recommended for termination of collection action and write-off closed, intermediaries must be able to separately identify the following:

- Claims A/R, of any amount, regardless of age, that cannot be validated.
- Claims A/R, for an individual provider, totaling less than \$25 for the aggregated principal balance, where no adjustment/recoupment has occurred in the past 60 days.
- Claims A/R for an individual provider, greater than 10 years old, regardless of amount.
- Claims A/R, for an individual provider, with an aggregate principal balance greater than or equal to \$25, which is less than 10 years old, and no adjustment/recoupment has occurred in the past 60 days.

After these separations are made, the following procedures will be followed:

For Recommendation of Write-Off (Termination of Collection Action):

When recommending write-off (termination of collection action), intermediaries will follow instructions as outlined in the overpayment section of this manual, which begins at Section 100, *or contact their regional office (RO) for guidance.*

- Claims A/R for an individual provider, totaling less than \$25 for the aggregated principal balance, where no recoupment has occurred in the past 60 days, should be recommended for termination of collection action and write-off closed. A listing should be forwarded to the RO which contains the following information:
 - Provider number;
 - Provider name;
 - Amount of claims A/R being requested for termination of collection action and write-off closed;
 - Date of claims A/R;
 - Date of last activity; and
 - Reason for requesting/recommending termination of collection action and write-off closed.
- Claims A/R, of any amount, regardless of age that cannot be validated, should be recommended for termination of collection action and write-off closed. This could include claims A/R received as a result of a Medicare contractor transition where no remittance advices are available, and other claims A/R where no remittance advice is available to support the balances. The intermediary must make a concerted effort to validate the claims A/R before selecting this option. A listing of this claims A/R must be forwarded to the RO for approval. The list should contain the same information as above, with the reason for termination of collection action and write-off recommendation that provides reasonable evidence to substantiate that the claim is no longer available.
- Claims A/R for an individual provider greater than 10 years old, regardless of amount, will be recommended and submitted to the RO for termination of collection action and write-off closed.

Intermediaries will submit, at least quarterly, recommendations for write-off and termination of collection action of outstanding claims A/R meeting the above criteria. Requests will be submitted to the RO no later than 30 days after the end of each calendar quarter. ROs will have 30 days after receipt of the request to respond, except for cases exceeding the RO's delegated authority. For those cases exceeding the RO authority, the RO will forward the case to CO with the RO's recommendation, within 30 days of receipt of the contractor's request.

For issuing an initial demand letter:

This instruction supercedes any other instructions for issuing demand letters for claims A/R, including those found in FMM Section 130. These instructions, however, do not apply to medical review and fraud overpayments.

- Claims A/R for an individual provider with an aggregate principal balance greater than or equal to \$25 and less than 10 years old, and where no recoupment has occurred in the past 60 days, must be validated and intermediaries will send an initial demand letter for the outstanding amount claim A/R balance. The demand letter will have a determination date equal to the date of the demand letter. In accordance with the intermediary's normal demand process, the provider will have 15 days to respond to the demand letter. In addition, the demand letter will contain the following:
 - The letter must explain the reason for the overpayment, provide the debtor with the opportunity to repay the debt, and explain that interest will begin to accrue if the debt is not paid in full within 30 days. The letter will provide the debtor with appeal rights and contain all provisions of a standard initial demand letter. The letter must also contain language that explains how the overpayment was determined and that the claims A/R has been outstanding as an adjustment, with no recoupment activity in the last 60 days. Intermediaries will include the date(s) of the remittance advice and original amount(s) of the claims A/R.
 - If the initial demand letter is returned as undeliverable, the intermediary will attempt to locate a valid address. If a valid address is found, or it is determined that there was a change of ownership, the intermediary must send the demand letter to the valid address/owner.
 - If a current address cannot be located, send the Debt Collection Improvement Act (DCIA) intent letter, and follow regular debt referral procedures.
 - If the initial demand letter is not returned undeliverable, the intermediary will follow normal debt collection procedures, including sending the DCIA intent to refer letter if the overpayment is not recouped. The DCIA intent to refer letter must be sent no later than 120 days from the date of the initial demand letter.
- Each demanded claim A/R will be considered a separate identifiable debt and will not be aggregated with other demanded claim A/R.

Exception to above procedures for issuing the initial demand letter:

If the intermediary has knowledge that the letter to a debtor will be returned undeliverable, based on prior attempts to contact the debtor, and where the intermediary cannot obtain a current address, the initial demand letter may be expanded to include the DCIA intent to refer language. The intermediary will send the initial demand letter with

the DCIA intent to refer language and follow normal debt referral procedures. The date of the initial demand letter will be the determination date for aging, interest accrual and DCIA referral purposes.

Claims A/R that are outstanding, but have not yet been demanded due to the fact that they have not met the timeframe for issuing an initial demand letter will be considered in cost report settlements. Intermediaries will review and include all outstanding undemanded claims A/R in the settlement process. Claims A/R that have been demanded, in accordance with these instructions, will not be included in the cost report settlement process, as these are now considered as separate receivables.

If the intermediary determines that the provider has filed bankruptcy, normal procedures regarding bankruptcy in Chapter 3, Section 140 will be followed, including administrative freezes on recoupment, exemption to DCIA, and issuance of letters regarding the overpayment. This instruction does not change any of the procedures to be followed for bankrupt providers.
