Transmittal 3145	Date: December 9, 2014
	Change Request 8969

Transmittal 3140, dated December 2, 2014, is being rescinded and replaced by Transmittal 3145 to correct the wage index budget neutrality factors listed in the Policy section of the Recurring Update Notification. The wage index budget neutrality factors listed in the payment rate tables are correct. All other information remains the same.

SUBJECT: Home Health Prospective Payment System (HH PPS) Rate Update for Calendar Year (CY) 2015

I. SUMMARY OF CHANGES: This Change Request updates the 60-day national episode rates, the national per-visit amounts, LUPA add-on amounts, and the non-routine medical supply payment amounts under the HH PPS for CY 2015. The attached Recurring Update Notification applies to Pub. 100-04, Medicare Claims Processing Manual, chapter 10, section 70.5.

EFFECTIVE DATE: January 1, 2015

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: January 5, 2015

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC statement of Work. The contractor is not obliged to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

I. GENERAL INFORMATION

A. Background:

The Affordable Care Act of 2010 mandated several changes to Section 1895(b) of the Social Security Act and hence the HH PPS Update for CY 2015.

Section 3131(a) of the Affordable Care Act mandates that starting in CY 2014, the Secretary must apply an adjustment to the national, standardized 60-day episode payment rate and other amounts applicable under section 1895(b)(3)(A)(i)(III) of the Act to reflect factors such as changes in the number of visits in an episode, the mix of services in an episode, the level of intensity of services in an episode, the average cost of providing care per episode, and other relevant factors. In addition, section 3131(a) of the Affordable Care Act mandates that this rebasing must be phased-in over a 4-year period in equal increments, not to exceed 3.5 percent of the amount (or amounts), as of the date of enactment, applicable under section 1895(b)(3)(A)(i)(III) of the Act, and be fully implemented by CY 2017.

In addition, Section 3131(c) of the Affordable Care Act amended section 421(a) of the Medicare Modernization Act (MMA), which was amended by section 5201(b) of the Deficit Reduction Act. The amended section 421(a) of the MMA provides an increase of 3 percent of the payment amount otherwise made under section 1895 of the Act for home health services furnished in a rural area (as defined in section 1886(d)(2)(D) of the Act), with respect to episodes and visits ending on or after April 1, 2010, and before January 1, 2016. The statute waives budget neutrality related to this provision, as the statute specifically states that the Secretary shall not reduce the standard prospective payment amount (or amounts) under section 1895 of the Act applicable to home health services furnished during a period to offset the increase in payments resulting in the application of this section of the statute.

B. Policy:

Market Basket Update

Section 3401(e) of the Affordable Care Act requires that, beginning in CY 2015, the HH market basket percentage be adjusted by changes in economy-wide productivity. The CY 2015 HH market basket percentage is 2.6 percent which is then reduced by the multi-factor productivity (MFP) adjustment of 0.5 percentage points. The resulting MFP-adjusted HH market basket update is equal to 2.1 percent. HHAs that do not report the required quality data will receive a 2 percentage point reduction to the MFP adjusted HH market basket update

of 2.1 percent.

National, Standardized 60-Day Episode Payment

As described in the CY 2015 final rule, to determine the CY 2015 national, standardized 60-day episode payment rate, CMS starts with the CY 2014 national, standardized 60-day episode rate (\$2,869.27). CMS applies a wage index budget neutrality factor of 1.0024 and a case-mix weight budget neutrality factor of 1.0366. CMS then applies an \$80.95 reduction (which is 3.5 percent of the CY 2010 national, standardized 60-day episode rate of \$2,312.94). Lastly, the national, standardized 60-day episode payment rate is updated by the CY 2015 MFP adjusted HH market basket update of 2.1 percent for HHAs that do submit the required quality data and by 0.1 percent for HHAs that do not submit quality data. The updated CY 2015 national standardized 60-day episode payment rate for HHAs that do submit the required quality data is shown in Table 1 (see attachment) and for HHAs that do **not** submit the required quality data are shown in Table 2. These payments are further adjusted by the individual episode's case-mix weight and wage index.

National Per-Visit Rates

To calculate the CY 2015 national per-visit payment rates, CMS starts with the CY 2014 national per-visit rates. CMS applies a wage index budget neutrality factor of 1.0012 to ensure budget neutrality for LUPA per-visit payments after applying the CY 2014 wage index, and then applies the maximum rebasing adjustments to the 2014 per-visit rates. The per-visit rates for each discipline are then updated by the MFP adjusted CY 2015 HH market basket update of 2.1 percent for HHAs that do submit the required quality data and by 0.1 percent for HHAs that do not submit quality data. The CY 2015 national per-visit rates per discipline for HHAs that do submit the required quality data are shown in Table 3 and for HHAs that do **not** submit the required quality data are shown in Table 4.

Low-Utilization Payment Adjustment Add-On Payments

Low-utilization payment adjustment (LUPA) episodes that occur as initial episodes in a sequence of adjacent episodes or as the only episode receive an additional payment. Beginning in CY 2014, CMS calculates the payment for the first visit in a LUPA episode by multiplying the per-visit rate by a LUPA add-on factor specific to the type of visit (skilled nursing, physical therapy, or speech-language pathology). The specific requirements for the new LUPA add-on calculation are described in CR 8380, Transmittal 2828 dated November 27, 2013. The CY 2015 LUPA add-on adjustment factors are displayed in Table 5.

Non-Routine Supply Payments

Payments for non-routine supplies (NRS) are computed by multiplying the relative weight for a particular NRS severity level by the NRS conversion factor. To determine the CY 2015 NRS conversion factor, CMS starts with the CY 2014 NRS conversion factor (\$53.65) and applies a 2.82 percent rebasing adjustment calculated in the CY 2015 final rule ($1 - 0.0282 = 0.9718$). CMS then updates the conversion factor by the MFP adjusted HH market basket update of 2.1 percent for HHAs that do submit the required quality data and by 0.1 percent for HHAs that do not submit quality data. CMS does not apply a standardization factor as the NRS payment amount calculated from the conversion factor is not wage or case-mix adjusted when the final claim payment amount is computed. The NRS conversion factor for CY 2015 payments for HHAs that do submit the required quality data is shown in Table 6a and the payment amounts for the various NRS severity levels are shown in Table 6b. The NRS conversion factor for CY 2015 payments for HHAs that do **not** submit quality data is shown in Table 7a and the payment amounts for the various NRS severity levels are shown in Table 7b.

Rural Add-on

As stipulated in section 3131(c) of the Affordable Care Act, the 3 percent rural add-on is applied to the national standardized 60-day episode rate, national per-visit payment rates, LUPA add-on payments, and the NRS conversion factor when home health services are provided in rural (non-CBSA) areas for episodes and visits ending on or after April 1, 2010, and before January 1, 2016. Refer to Tables 8 through 10b for the CY 2015 rural payment rates.

These changes are to be implemented through the Home Health Pricer software found in Medicare contractor standard systems.

II. BUSINESS REQUIREMENTS TABLE

You will receive notification of the article release via the established "MLN Matters" listserv. Contractors shall post this article, or a direct link to this article, on their Web sites and include information about it in a listserv message within one week of the availability of the provider education article. In addition, the provider education article shall be included in the contractor's next regularly scheduled bulletin. Contractors are free to supplement MLN Matters articles with localized information that would benefit their provider community in billing and administering the Medicare program correctly.	X		X		

IV. SUPPORTING INFORMATION

Section A: Recommendations and supporting information associated with listed requirements:

"Should" denotes a recommendation.

X-Ref Requirement Number	Recommendations or other supporting information:
8969.5	CMS will provide the contractors with a list of providers who have not submitted the required quality data. The list will be distributed via a Technical Direction Letter (TDL).
8969.4	In order to implement the revised clinical and functional severity levels, the hexavigesimal coding scheme used to record severity points in positions 11 -18 of the Treatment Authorization Code must also change. This change will be made in the HH Grouper software run at the HHA site and is transparent to Medicare claims processing. Documentation of the new coding scheme will be part of the HH Grouper software package.
