Effective **Sunday, August 12, 2018**, all users of the Medicare Advantage Prescription Drug (MARx) User Interface (UI) will access the system through the CMS Enterprise Portal. This document shows the screen flow to log in and log out of the MARx UI.
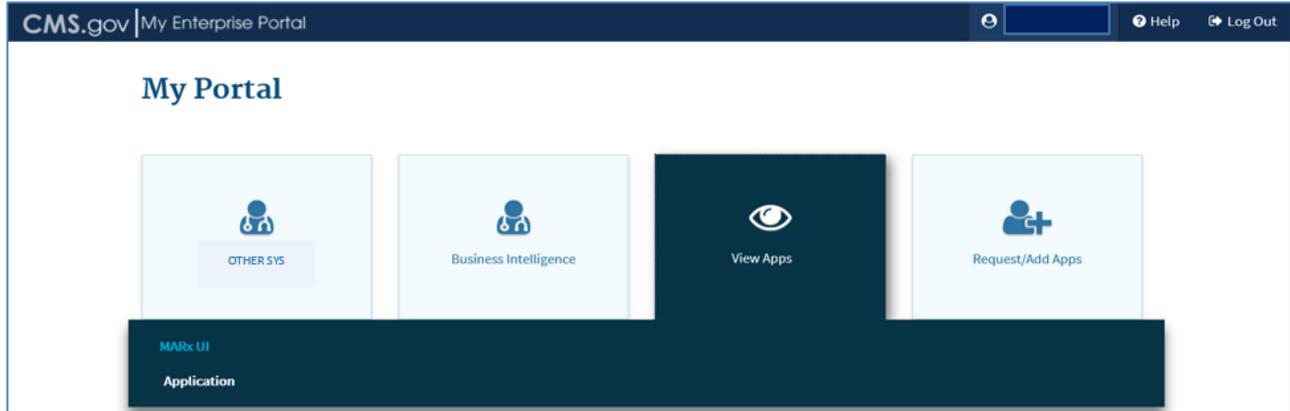

- Users will navigate to the Enterprise Portal: https://portal.cms.gov and use the login screen shown below.

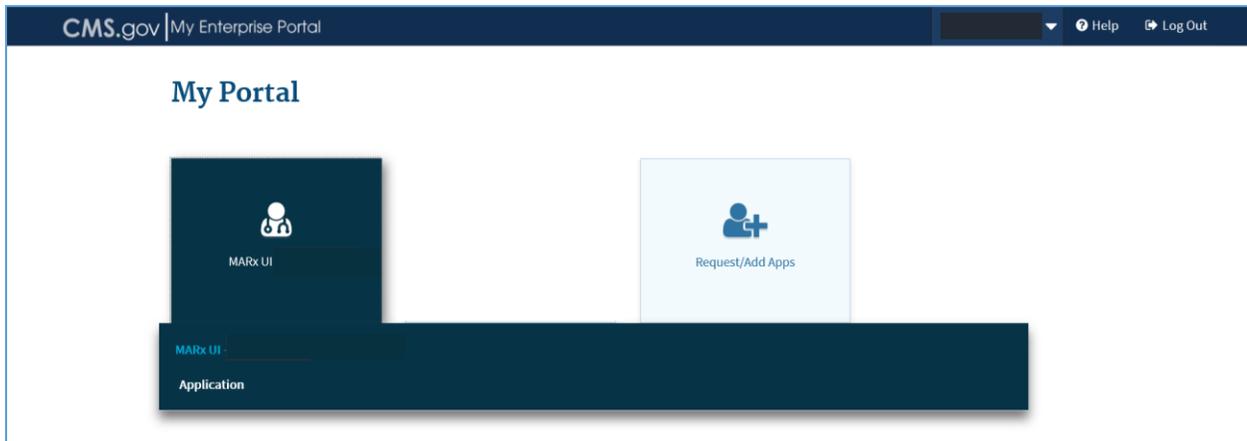

- Upon successfully logging into the Enterprise Portal, you will see the **My Portal** screen with the **MARx UI** tile. You may also see other tiles, depending on your access to other systems.

- If the user has access to more than 2 or 3 applications MARx may not display as a tile, to locate MARx, click on "**View Apps**" and then on "*Application*" for MARx to launch.

- If the user has access to 2 or less applications, select the **MARx UI** tile and then select the MARx UI *Application* link.

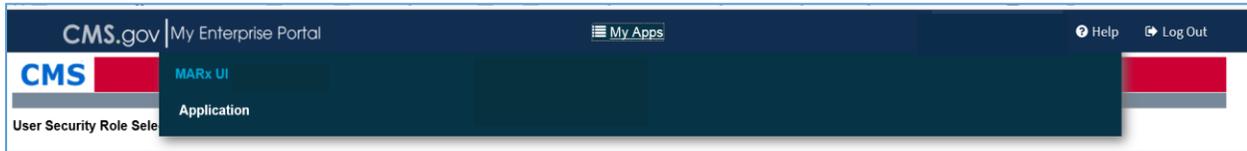

- Upon selecting the *Application* link, you will see the MARx User Security Role Selection (M002) screen.

- If you have access to more than one system from the Enterprise Portal, you can select the **My Apps** at the top of the screen and select the *Application* link under the desired system.

- To log out of the MARx UI, you will select the **Log Out** option in the top right corner of the Enterprise Portal banner.

Reminder: Please remove any previously saved Bookmark or Favorite used to access the MARx UI via the link https://marx.cms.hhs.gov and replace it with the **CMS Enterprise Portal** at https://portal.cms.gov.

If you have any questions about the MARx UI integration with the CMS Enterprise Portal, please contact the MAPD Help Desk.
