

Religious Preference Among Medicare Beneficiaries

This infographic shows percentage of Medicare beneficiaries living in the community in 2023 by religious preference.

SOURCE: Centers for Medicare & Medicaid Services. 2023 MCBS Survey File – Early Release.

This infographic presents estimates for beneficiaries who were enrolled in Medicare at any point in 2023 and were still alive, living in the community, and eligible and enrolled in Medicare at the time of their Fall 2023 interview. The dataset includes 12,876 beneficiaries (weighted N = 63,467,896). "Beneficiaries living in the community" refers to beneficiaries who live in their own residence or with family or friends (i.e., not in a long-term care facility such as a nursing home). Percentages may not add up to 100 due to rounding. Responses of "Don't Know" and "Refused" (approximately 1.6% of responses) were excluded. This communication was printed, published, or produced and disseminated at U.S. taxpayer expense.
