[FAL User Guide](#)

## Timeline Key

Model Milestone

Monthly Claims Data Files

Participant Actions

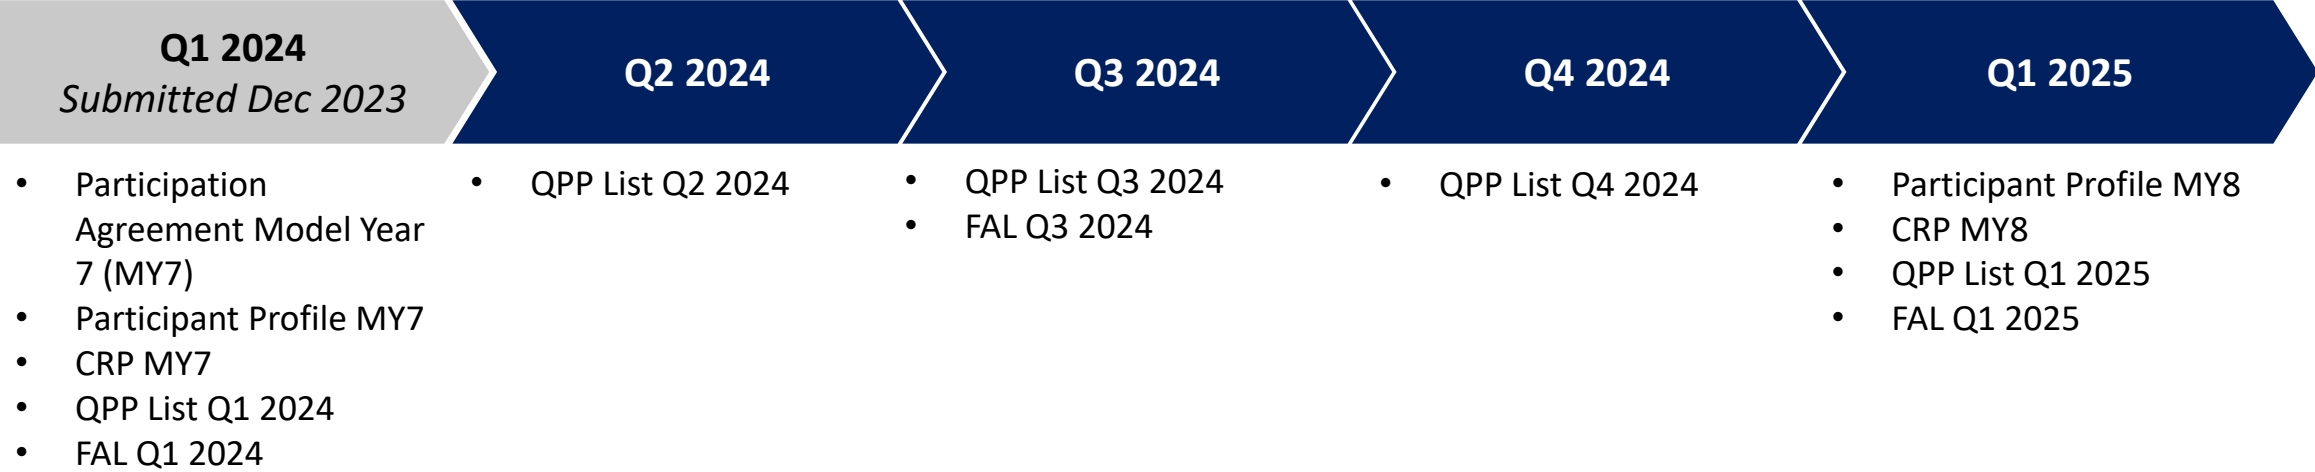

Reconciliation Process

\*CMS will announce dates at a later time

# BPCI Advanced Deliverables Timeline

Per the Participation Agreement, deliverables are due 30 days before the start of the quarter to which they pertain. However, CMS may adjust deadlines to account for operational needs.

*The following resources can be found on slide 10 of the Participant Resource Guide:*

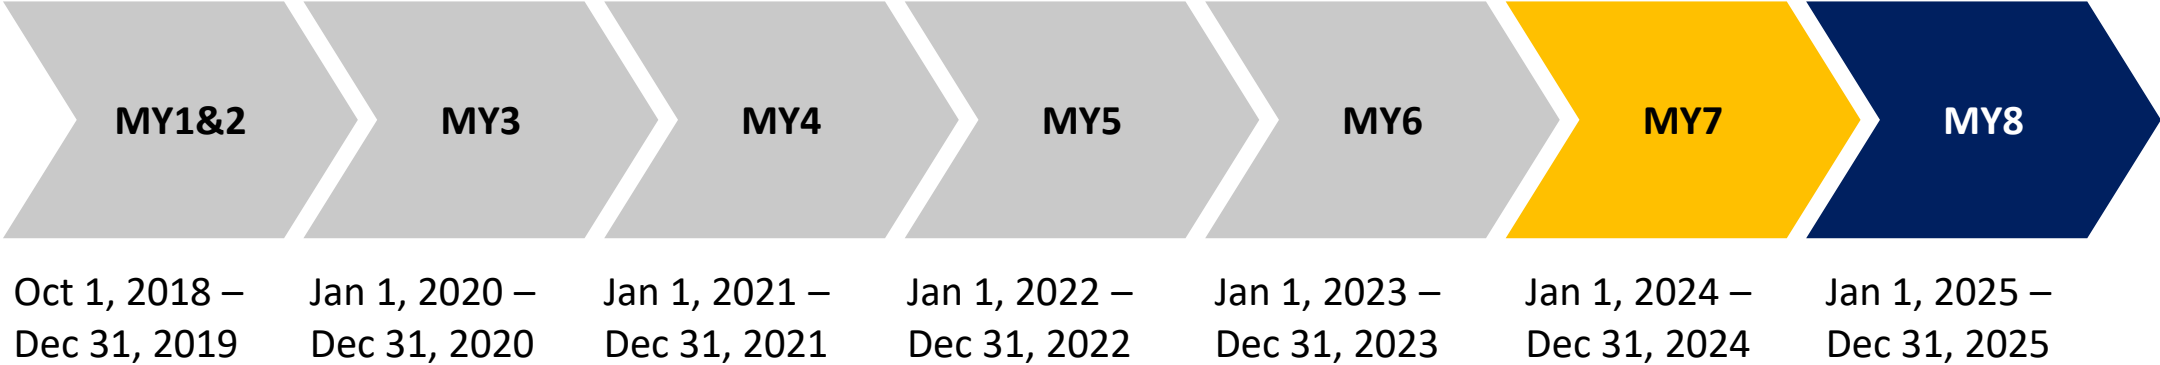

-  [QPP List User Guide](#)
-  [FAL User Guide](#)
-  [CRP User Guide](#)
-  [Participant Profile User Guide](#)

 **Note that deliverables are due at the following cadences:**

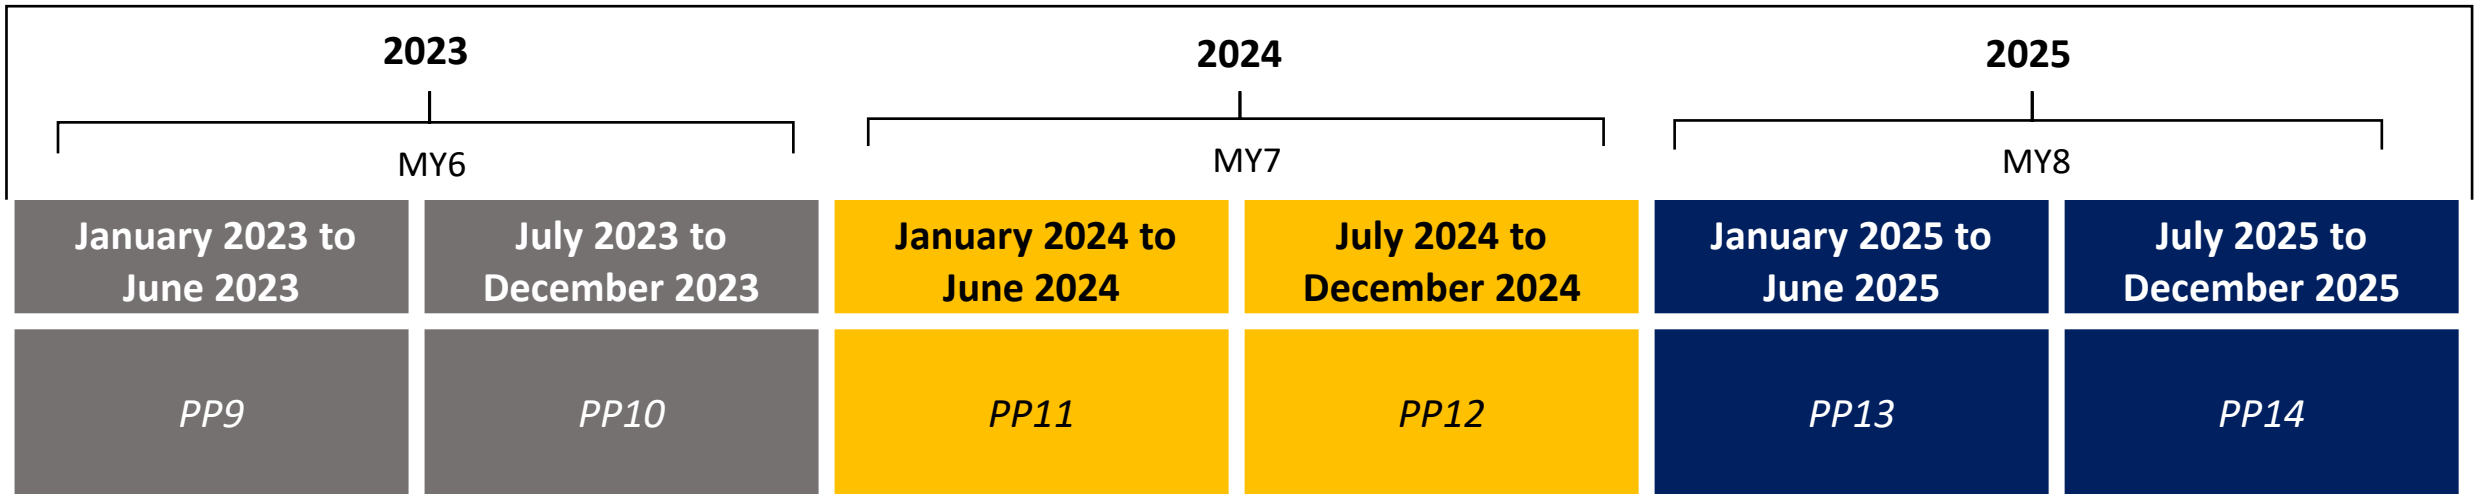

- Quality Payment Program (QPP) List is due **quarterly**
- Financial Arrangement List (FAL) is due **semi-annually** if a Participant entered into Financial Arrangements with organizations or individuals
- Participant Profile and Care Redesign Plan (CRP) are due **annually**

# BPCI Advanced Model Years 1 - 8

**Model Year 7 (MY7) begins on January 1, 2024 and ends on December 31, 2024.**

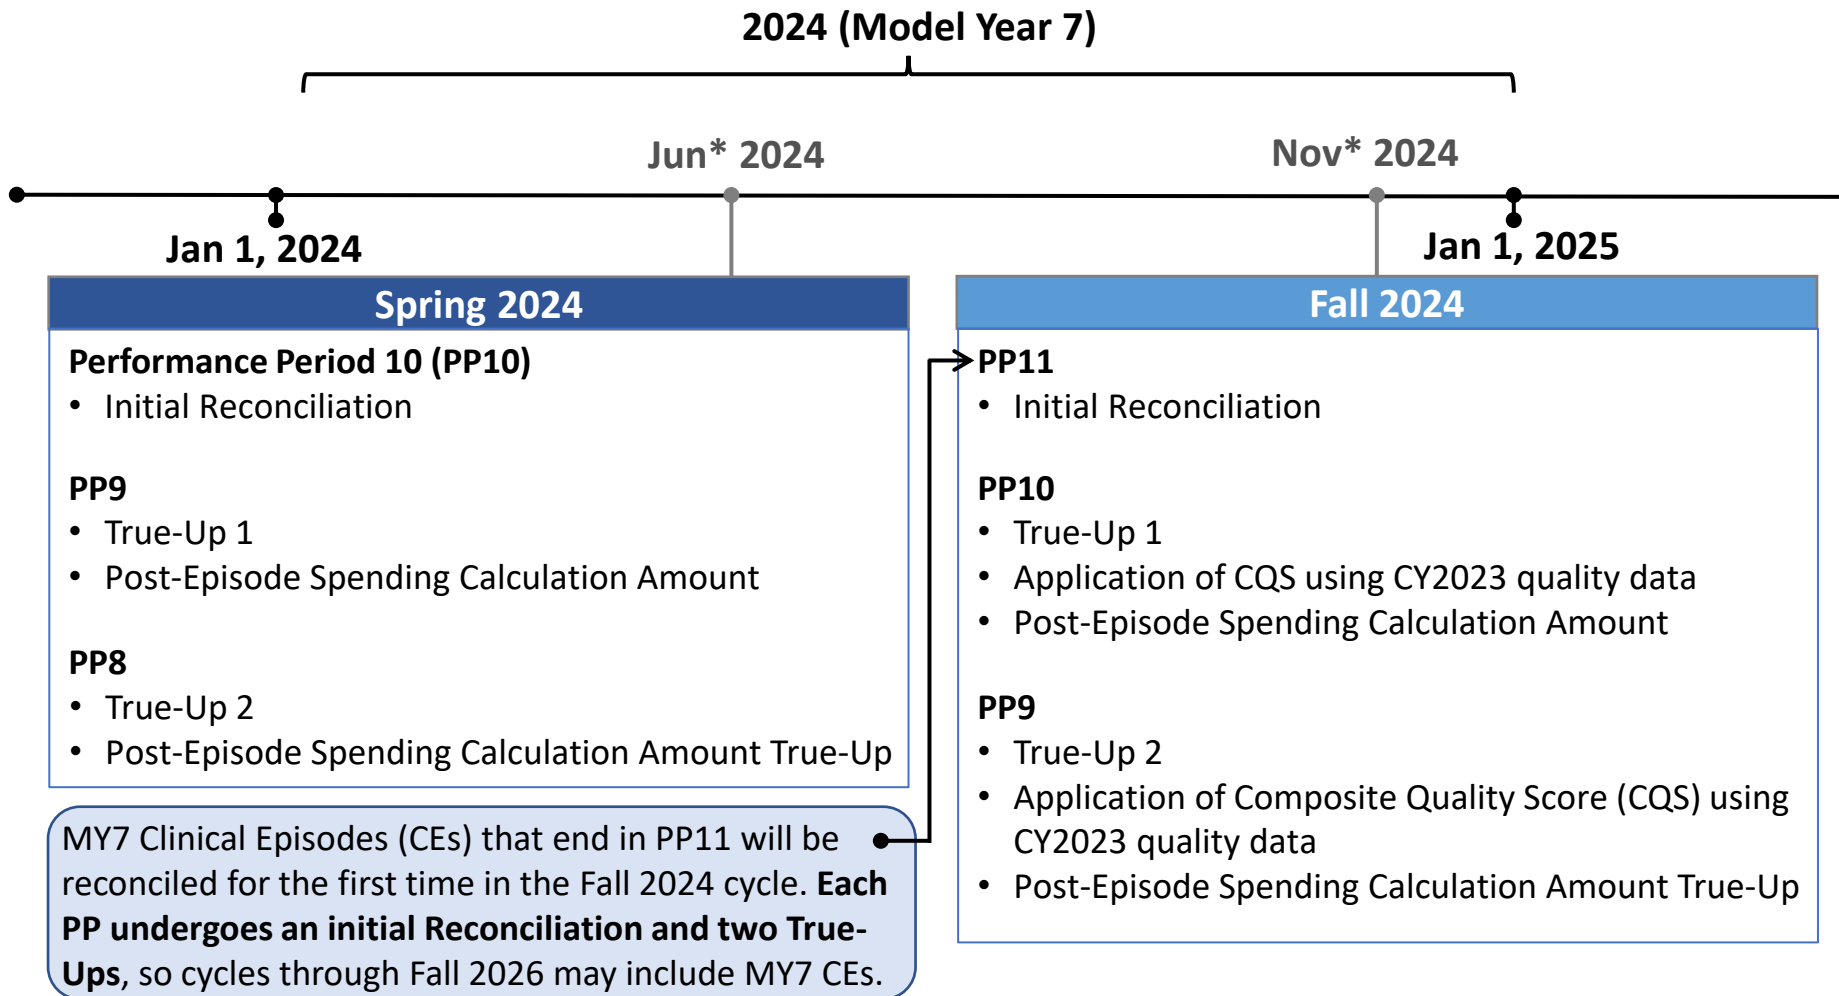

# BPCI Advanced Model Performance Periods 9 - 14

Each Model Year (MY) contains two, six-month Performance Periods (PPs) during which BPCI Advanced Clinical Episodes may occur. Clinical Episodes (CEs) are reconciled based on the PP in which the CE ends, which might be different from the PP where the CE was triggered. For example, a Participant triggered a CE with an Anchor end date on or before 12/31/23 and a CE end date on or after 1/1/24. This is a MY6 CE because the Anchor end date falls in MY6, and a PP11 CE because the CE end date falls in PP11.

# BPCI Advanced Reconciliation Timeline

## What happens in each phase of Reconciliation?

**Initial Reconciliation** compares CE payments to Target Prices. This process occurs during the Performance Period after the CE ends. Based on performance, Participants may receive additional payment from CMS or may owe a repayment amount to CMS.

**True-Up** calculations factor in newly processed claims and occur six months and one year after initial Reconciliation occurs.

*Note: The initial Reconciliation amount does not adjust for the Episode Initiator's performance on quality measures (CQS) because that data is not yet available; accordingly, the CQS is assumed to be 0 during the initial Reconciliation. CQS adjustment happens in the Fall True-Up calculation.*
