

The Center of Innovation

The Center for Medicare & Medicaid Innovation (CMMI) develops and tests new healthcare payment and service delivery models. CMMI's models are alternative payment models (APMs) which reward health care providers for delivering high-quality and cost-efficient care.

Mission: Innovate in the pursuit of affordable and better health care for all Americans.

Vision: A health care system that achieves equitable outcomes through high quality, affordable, and person-centered care.

Business Services Group

Business Services Group (BSG) is CMMI's trusted resource for anything related to operations. We obtain and manage funding, manage contract vehicles, and deliver technology, payment, and data solutions. We're also responsible for external and internal operational services like the help desk, security/privacy, records management, and internal audits.

Why work with us?

We're a cohesive, strong group that takes pride in meeting the needs of our CMMI customers. We keep our commitments as individuals and a team, and strive to be open, honest, and genuine. We work together and share freely to meet customer needs, and respect each other's perspectives and experiences.

Skills we're looking for

We're looking for budget and financial analysts; data, IT and product managers; software developers and testers; auditors; data engineers; records management specialists; clinical informaticists; and people with experience in information security systems or human-centered design.
