^[1] Since we anticipate that providers, initially, won't incur a cost for the product, CMS will update the payment allowance at a later date. Providers shouldn't bill for the product if they got it for free.

^[2] We'll also geographically adjust these rates for many providers. We've included files with the geographically adjusted payment rates for COVID-19 vaccine administration in the "Additional Resources" section below. Certain settings use other payment methodologies, such as payment based on reasonable costs. Starting January 1, 2023, we'll also annually update the COVID-19 vaccine payment rates to reflect changes in costs related to administering preventive vaccines.

^[3] Johnson & Johnson COVID-19 vaccine. On May 5, 2022, the FDA limited the authorized use of the Janssen COVID-19 vaccine. On June 1, 2023, [FDA revoked the EUA](#) for this vaccine.

^[4] Administration booster codes should be billed for all applicable booster doses as approved and/or authorized by the FDA.

^[5] On June 17, 2022, FDA authorized the 50MCG/0.5ML presentation of the Moderna COVID-19 vaccine to provide primary series doses in individuals 6 -11 years of age in addition to the March 29, 2022, FDA authorization to provide booster vaccination doses in individuals 18 years and older.

^[6] On October 12, 2022, the FDA authorized the Moderna bivalent product (dark blue cap with gray border) and its administration for use as a single booster dose in individuals 12 - 17 years old in addition to the August 31, 2022, FDA authorization as a single booster dose in individuals 18 years and older.
