**Title: Formulary Drugs Missing Pricing Data on the Medicare Prescription Drug Plan Finder**

**Date: 10/24/06**

**Summary:** CMS' quality assurance process of 2007 plan year pricing files for the Medicare Prescription Drug Plan Finder (MPDPF) has identified a new issue. Some Part D Sponsors have failed to include pricing data for a subset of their formulary drugs. This type of error results in the display of retail pricing for these formulary drugs, and therefore CMS will suppress the affected Sponsors' pricing data from display on the MPDPF.
