Subject: Contract Year (CY) 2023 Plan Benefit Package (PBP) Software Demo Version and Training Slides

In conjunction with the release of the CY 2023 PBP, CMS has published a demo version of the PBP software and corresponding training slides. These materials are available from the HPMS landing page (<https://hpms.cms.gov>) under the Documentation button. Please note that this page is accessible prior to logging into the system.

The demo version of the CY 2023 PBP is not available for production use. Rather, organizations may use this version for training purposes.

The training slides provide information about the relationship between the PBP and the Health Plan Management System (HPMS), key software features of the PBP software, and a review of the software changes for CY 2023.
