Subject: CY 2024 Bid-Related Updates in HPMS - 4/24/2023

CMS released the following bid-related updates on Monday, April 24:

Plan Benefit Package:

- The Benefit Details status was not set to “In Progress” following a full plan copy. The “In Progress” status is needed to re-run the CY 2024 cost share validations.
- The PBP data report for benefits 1a, 1b, and 2 was displaying erroneous fields.
- When OON or POS groups were assigned under the Benefit Details section, users were unable to select “Save and Next” or “Save and Close.”
- The PBP data report was displaying a 0% coinsurance for plans that do not offer coinsurance under benefits 15-1, 15-2, and 15-3.
- Benefits were displayed for data entry for SSBCI additional benefit packages that were not selected as being part of the package.
- The PBP benefit reports (both excel and HTML) have been updated for SSBCI packages to display all benefit selections.
- Part D Insulin cost sharing has been updated for plans that offer standard/preferred retail and/or standard/preferred mail order pharmacy networks. For insulin Long-Term Care and Out-of-Network locations, plans may choose to offer either the standard cost sharing or the preferred cost sharing for these locations.

Documentation:

- The “Specialty Tier Calculation” document has been added to the HPMS landing page under the Documentation Section.
