Medicare Coverage Database

Latest Site Updates – March 2026

New functionality has been incorporated into the CMS Medicare Coverage Database (MCD). These changes became effective 03/12/2026:

Help & Resources:

1. Added a **How To – Consolidated MCD Page Help** link to the How To Library on the Help & Resources page. This link provides access to help content for all MCD pages in one location.

2. Added a **How To – Frequently Asked Questions (FAQs)** link to the How To Library on the Help & Resources page that provides answers to commonly asked questions.

Basket:

3. Added a **Newer Version** column to the Basket. A **View** link appears in this column when a newer version of an NCD, NCA, CAL, LCD, or Article has been published since the document was added to your Basket. Selecting **View** opens the most recent version of the document. User instructions have been updated accordingly.

4. Updated instructional text on the **Basket** page to clarify that documents must be added to the Basket before you can email the Basket or create a link to it.

General:

5. Resolved an issue affecting the **Email Document** and **Email Basket** features.
