Finding Answers in MCD Reports

The Medicare Coverage Database (MCD) contains a lot of valuable information about what is covered under Medicare at the local and national levels.

- ❖ If you're looking for what's new in the last week or what documents have been updated over the last year, Reports are the place to look.
- ❖ You can also find the statuses of a particular set of documents or which national documents are open for public comment.
- ❖ You can generate a report to see all of the NCDs organized by chapter and section or to find the MAC Contact for your state.
- ❖ Results for most of the reports can be added to the Basket for emailing to yourself or others. Results for all of the reports can be downloaded to Excel.
- ❖ The MCD Reports can help you answer questions that you might have about Medicare Coverage. The reports available on the MCD are described in more detail on the following pages.
- ❖ If you're looking for a specific document, keyword, or code, you should use the MCD Search page.
