

End-Stage Renal Disease (ESRD) Treatment Choices (ETC) Model

Overview

The Centers for Medicare & Medicaid Services (CMS), through the Center for Medicare & Medicaid Innovation (CMMI), is implementing the End-Stage Renal Disease Treatment Choices (ETC) Model beginning January 1, 2021. The ETC Model is a mandatory payment model focused on encouraging greater use of home dialysis and kidney transplants, in order to preserve or enhance the quality of care furnished to Medicare beneficiaries while reducing Medicare expenditures. The ETC Model includes end-stage renal disease (ESRD) facilities and certain clinicians caring for beneficiaries with ESRD—or Managing Clinicians—located in selected geographic areas as participants. CMS is using Hospital Referral Regions (HRRs) as the geographic unit of selection for selecting ETC Participants. An HRR is a unit of analysis created by the Dartmouth Atlas Project to distinguish the referral patterns to tertiary care for Medicare beneficiaries, and is composed of groups of ZIP Codes. In accordance with the CMS Final Rule for the Specialty Care Models To Improve Quality of Care and Reduce Expenditures, CMS has randomly selected HRRs for inclusion in the ETC Model and has also included all HRRs with at least 20 percent of ZIP Codes located in Maryland in addition to those selected through randomization of 30% of the United States. This report communicates the geographic areas that have been selected for ETC participation.

Selected HRRs

The 'Selected HRRs' tab contains the list of HRRs that are the geographic areas selected to participate in the ETC Model. All dialysis facilities and Managing Clinicians with practice locations in any of these HRRs are required to participate in ETC Model. Each ZIP Code included has its own row of data. The columns included in this tab are:

HRR Number	HRR number.
HRR City	City associated with HRR number. This is not necessarily the city associated with the ZIP Code(s).
HRR State	State associated with HRR number. This is not necessarily the state associated with the ZIP Code(s).
ZIP Code	ZIP Codes comprising each HRR.

Selected HRRs for ETC Model
