Quality Measures ..... 2

    OCM Measure List Effective 01.01.2022 v1.10..... 2

    OCM-5 Measure Specifications Effective 01.01.2022 v1.7 ..... 2

    OCM Tech Spec Value Set Effective 01.01.2022 v1.12 ..... 3

Any changes listed in these Release Notes that will require an update to the OCM Data Registry will be included in a future release. Practices will be notified of the OCM Data Registry release date through the OCM eNews or other email communication from OCM Support.

## Quality Measures

Measure Flows within each Measure Specifications document have been updated to incorporate all changes made to measure logic.

### OCM Measure List Effective 01.01.2022 v1.10

Since the release of the “OCM Measure List v1.9” document in February 2021 the following updates have been identified:

1. Table 1: OCM Measure Description and Population Summary
  - a. Under Measure Name, updated the eCQM measure number for OCM-5 from “CMS 2v10.2” to “CMS 2v11.0”
  - b. Under Measure Name, removed “NQF 0418e” from OCM-5
  - c. Under Measure Number, removed “\*” from OCM-5
2. Table 2: OCM Measure Description and Population Summary
  - a. Under Measure Name, removed “\*” from OCM-5

### OCM-5 Measure Specifications Effective 01.01.2022 v1.7

Since the release of the “OCM-5 Measure Specifications v1.6” document in February 2021, the following updates have been identified:

1. Updated eCQM measure number from “CMS 2v10.2” to “CMS 2v11.0”
2. Removed “NQF 0418e” from measure name
3. Removed the Disclaimer
4. Updated the Definitions section under Follow-Up Plan from “Referral to a practitioner who is qualified to diagnose and treat depression” to “Referral to a provider for additional evaluation and assessment to formulate a follow-up plan for a positive depression screen”
5. Updated the Guidance section:
  - a. From “A depression screen is completed ...practitioner who is qualified to treat depression...” to “A depression screen is completed ...provider for additional evaluation...”
  - b. From “\* The depression screening must be reviewed and addressed in the office of the provider...” to “\* The depression screening must be reviewed and addressed by the provider...” under “Screening Tool”
  - c. From “\* Referral to a practitioner or program...” to “\*Referral to a provider or program...” under “Follow-up plan”
  - d. From “Should a patient screen positive for depression, a clinician should opt to complete a suicide risk assessment when appropriate and based on individual patient characteristics. However, for the purposes of this measure, a suicide risk assessment or additional screening

using a standardized tool will not qualify as a follow-up plan.” to “Should a patient screen positive for depression, a clinician should:

\* Only order pharmacological intervention when appropriate and after sufficient diagnostic evaluation. However, for the purposes of this measure, additional screening and assessment during the qualifying encounter will not qualify as a follow-up plan.

\* Opt to complete a suicide risk assessment when appropriate and based on individual patient characteristics. However, for the purposes of this measure, a suicide risk assessment or additional screening using a standardized tool will not qualify as a follow-up plan.”

6. Added to the Guidance section “This measure does not require documentation of a specific score, just whether results of the normalized and validated depression screening tool used are considered positive or negative. Each standardized screening tool provides guidance on whether a particular score is considered positive for depression.”
7. Updated the following sections:
  - a. Rationale
  - b. Clinical Recommendation Statements
  - c. References
  - d. Copyright

## **OCM Tech Spec Value Set Effective 01.01.2022 v1.12**

Since the release of the “OCM Tech Spec Value Set v1.11” document in February 2021, the following updates have been identified:

### **1. Copyright & Disclaimer Tab**

- a. Updated the Copyright & Disclaimer

### **2. OCM-5 Tab**

- a. Updated the “Negative Depression Screening” value set OID from “2.16.840.1.113883.3.526.3.1564” to “Direct-referenced code in eCQM”
- b. Updated the “Positive Depression Screening” value set OID from “2.16.840.1.113883.3.526.3.1565” to “Direct-referenced code in eCQM”
- c. Added code 616402 to the “Adult Depression Medications” value set
- d. Removed the following codes from the “Adult Depression Medications” value set:
  - 199283
  - 251200
  - 794947
- e. Added the following codes to the “Bipolar Diagnosis” value set:
  - 296.50
  - 296.51
  - 296.53
  - 296.54
  - 296.55
  - 296.56
  - 296.89

- F31.0
- f. Added the following codes to the “Depression Diagnosis” value set:
- 296.35
  - 191604000
  - 10811121000119102
  - 133121000119109
- g. Removed the following codes from the “Depression Diagnosis” value set:
- 090.6
  - 099.340
  - 099.341
  - 099.342
  - 099.343
  - 099.345
- h. Added code 228557008 to the “Follow Up for Adult Depression” value set
- i. Removed code 304891004 from the “Follow Up for Adult Depression” value set
