Transmittal 1911	**Date: August 22, 2017**
	Change Request 10031

Transmittal 1838, dated April 28, 2017, is being rescinded and replaced by Transmittal 1911, dated, August 22, 2017 to change the effective and implementation dates. All other information remains the same.

SUBJECT: Part B Detail Line Expansion - Common Working File (CWF)

I. SUMMARY OF CHANGES: The Centers for Medicare & Medicaid Services (CMS) believes that there is a need to expand the downstream systems to allow for 50 detail lines. CMS requested an analysis and design estimate from the Part B shared system maintainers (SSMs) and the Common Working File (CWF) for an expansion in the number of detail lines of service, which can be brought into the claims adjudication system and stored in downstream systems.

EFFECTIVE DATE: October 1, 2017 - Analysis; April 1, 2018 - Design and Coding; July 1, 2018 - Testing and Implementation
Unless otherwise specified, the effective date is the date of service.
IMPLEMENTATION DATE: October 2, 2017 - Analysis; April 2, 2018 - Design and Coding; July 2, 2018 - Testing and Implementation

I.   GENERAL INFORMATION

A.   Background: In an effort to ensure that beneficiaries are receiving the best possible care from Medicare providers, the Centers for Medicare & Medicaid Services (CMS) wants to increase the number of detail lines, which can be submitted to the claims processing systems, as well as, the downstream systems. CMS requested an analysis and design estimate from the Part B shared system maintainers (SSMs) and the Common Working File (CWF) for this expansion initiative. CMS believes that there is a need to expand the downstream systems to allow for 50 detail lines.

This change request (CR) is a follow up to CR 9096. This is one of several CRs being written to make the necessary system modifications for a Part B detail line expansion. The modifications to CWF will benefit all impacted parties by introducing a consistent and more efficient mechanism for communication of claim detail level information. CWF's modifications are imperative for the expansion to 50 claim detail lines. This CR will implement CWF deliverables only.

B.   Policy: The 2006 Tax Relief and Health Care Act (P.L. 109-432) required the establishment of a physician quality reporting system, including an incentive payment for eligible professionals who satisfactorily report data on quality measures for covered professional services furnished to Medicare beneficiaries.

Contractors shall refer to the copybooks (Attachments 1-6) attached to this CR for a more detailed breakdown of the technical and programmatic requirements needed to accomplish this line expansion.
