Pub. 100-20	Transmittal: 2025	Date: February 2, 2018	Change Request: 10451

SUBJECT: Shared System Enhancement 2014: Implementation of Fiscal Intermediary Shared System (FISS) Obsolete On-Request Jobs - Phase 1

EFFECTIVE DATE: July 1, 2018; October 1, 2018; January 1, 2019
Unless otherwise specified, the effective date is the date of service.
IMPLEMENTATION DATE: July 2, 2018; October 1, 2018; January 7, 2019

I.   GENERAL INFORMATION

A.   Background: The Centers for Medicare & Medicaid Services' (CMS) goal is to identify and remove any on-request obsolete jobs (i.e., jobs that no longer meet the needs of the business owner). The removal of on-request jobs reduces: (1) System complexity and makes future maintenance easier and more efficient; (2) Processing and storage costs at the Virtual Data Centers; and (3) Processing and storage costs at the Medicare Administrative Contractors (MACs) by discontinuing the need to warehouse these jobs at their local data centers. There is four phases, and CMS will issue a separate Change Request (CR) for each phase, in which FISS will be directed to remove on-request obsolete jobs from the shared system. This CR is subsequent to CR10305.

B.   Policy: There is no policy change associated with this Change Request (CR). This CR is subsequent to CR10305 - Shared System Enhancement 2014: Implementation of Fiscal Intermediary Shared System (FISS) Obsolete On-Request Jobs - Phase 1.
