

CMS Manual System	Department of Health & Human Services (DHHS)
Pub 100-20 One-Time Notification	Centers for Medicare & Medicaid Services (CMS)
Transmittal 1667	Date: May 12, 2016
	Change Request 9605

NOTE: This Transmittal is no longer sensitive and is being re-communicated August 18, 2016. The Transmittal Number, date of Transmittal and all other information remains the same. This instruction may now be posted to the Internet.

SUBJECT: Analysis Only CR - Medicare ID end-date

I. SUMMARY OF CHANGES: The Purpose of this CR is Analysis Only to determine the impact on FISS processing if PECOS does not send a Medicare ID end-date to in the FISS extract file. PECOS will determine if the same Medicare ID is active in PECOS on at least one other 855A enrollment, irrespective of whether CHOW information exists or not. If the Medicare ID Is active on atleast one enrollment, PECOS will not send the Medicare ID end date. This rule will apply to both 02 and 07 child records in the PECOS extract file to FISS. *There are no proposed changes to FISS or its processes.*

Background:

When PECOS sends a Medicare ID termination, PECOS pairs it with a specific enrollment ID, expecting that the Medicare ID will be terminated in FISS for only that enrollment ID.

When FISS receives a Medicare ID termination from PECOS, FISS terminates all occurrences of this Medicare ID. When duplicate Medicare IDs are received in one day, the last one FISS processes is the one that takes effect (termination vs. activation).

The PECOS team shall be responsible for taking meeting minutes and distribution.

EFFECTIVE DATE: October 1, 2016

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: October 3, 2016

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

II. CHANGES IN MANUAL INSTRUCTIONS: (N/A if manual is not updated)

R=REVISED, N=NEW, D=DELETED-Only One Per Row.

III. FUNDING:

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is

not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: Analysis Only CR - Medicare ID end-date

EFFECTIVE DATE: October 1, 2016

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: October 3, 2016

I. GENERAL INFORMATION

A. Background: When Provider Enrollment, Chain & Ownership System (PECOS) sends a Medicare ID termination, Provider Enrollment, Chain & Ownership System (PECOS) pairs it with a specific enrollment ID, expecting that the Medicare ID will be terminated in Fiscal Intermediary Shared System (FISS) for only that enrollment ID.

When FISS receives a Medicare ID termination from Provider Enrollment, Chain & Ownership System (PECOS), Fiscal Intermediary Shared System (FISS) terminates all occurrences of this Medicare ID. When duplicate Medicare IDs are received in one day, the last one Fiscal Intermediary Shared System (FISS) processes is the one that takes effect (termination vs. activation).

B. Policy: NA

II. BUSINESS REQUIREMENTS TABLE

"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.

Number	Requirement	Responsibility								
		A/B MAC			D M E M A C	Shared- System Maintainers			Other	
		A	B	H H H		F I S S	M C S	V M S		C W F
9605.1	The FISS maintainer shall participate in up to five one hour meetings with the PECOS maintainer.	X				X				
9605.2	The FISS maintainer shall provide an impact analysis for the following within five business days following the first call: <ul style="list-style-type: none"> • PECOS will not send a Medicare ID end-date to in the FISS extract file, if the same Medicare ID is active in PECOS on at least one other 855A enrollment, irrespective of whether Change of Ownership information exists or 					X

V. CONTACTS

Pre-Implementation Contact(s): Sandhya Mathur, 410-786-3476 or sandhya.mathur@cms.hhs.gov

Post-Implementation Contact(s): Contact your Contracting Officer's Representative (COR).

VI. FUNDING

Section A: For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

ATTACHMENTS: 1

63.1.1 FISS Extract Layout

The PECOS FISS Enrollment Record Export Layout is the format that stores PECOS enrollment record data that is put on the CMS mainframe on a daily basis for the Medicare Part A claims payment system to retrieve. The FISS Extract file consists of the file header record, the file trailer record, the enrollment base record and up to seven enrollment child records for each enrollment record.

The header record is the first record included in the FISS Extract file. Records between the file header and trailer record represent the exported enrollment records for that specific FI. The trailer record is the last record included in the FISS Extract file. The trailer record indicates the end of the file. The enrollment base record exists for each enrollment record in the FISS Extract file. The enrollment base record includes data fields for PECOS associate-level information like the provider's TIN, LBN, provider type, etc. Child records provide additional information and are tied to the enrollment base record by information in the child record layout, which contain the following elements:

- Record Type
- FI Contractor ID
- Create date
- PECOS Associate Control (PAC) ID
- Enrollment ID

This information is at the beginning of each child record.

The PECOS export data is sent to the FISS system in the following format:
