SUBJECT: October 2010 Quarterly Average Sales Price (ASP) Medicare Part B Drug Pricing Files and Revisions to Prior Quarterly Pricing Files

I. SUMMARY OF CHANGES: The ASP methodology is based on quarterly data submitted to CMS by manufacturers. CMS will supply contractors with the ASP and not otherwise classified (NOC) drug pricing files for Medicare Part B drugs on a quarterly basis. Payment allowance limits under the OPPS are incorporated into the Outpatient Code Editor (OCE) through separate instructions:

Pub.100-04 (Claims Processing Manual), Chapter 17, Section 20.1.2 Average Sales Price (ASP) Payment Methodology (Rev. 1513; Issued: 05-23-08; Effective/Implementation Date: 06-23-08) Section 303(c) of the Medicare Modernization Act of 2003 (MMA) revised the payment methodology for Part B covered drugs and biologicals that are not priced on a cost or prospective payment basis. Per the MMA, beginning January 1, 2005, the vast majority of drugs and biologicals not priced on a cost or prospective payment basis will be priced based on the average sales price (ASP) methodology. Pricing for compounded drugs is performed by the local contractor.
