SUBJECT: January 2011 Integrated Outpatient Code Editor (I/OCE) Specifications Version 12.0

I. SUMMARY OF CHANGES: This notification provides the Integrated OCE instructions and specifications for the Integrated OCE that will be utilized under the OPPS and Non-OPPS for hospital outpatient departments, community mental health centers, and for all non-OPPS providers, and for limited services when provided in a home health agency not under the Home Health Prospective Payment System or to a hospice patient for the treatment of a non-terminal illness. This Recurring Update Notification applies to Chapter 4, Section 40.1.

EFFECTIVE DATE: January 1, 2011

IMPLEMENTATION DATE: January 3, 2011

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

III. FUNDING:

For Fiscal Intermediaries (FIs), Regional Home Health Intermediaries (RHHIs):

No additional funding will be provided by CMS; Contractor activities are to be carried out within their operating budgets.

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: January 2011 Integrated Outpatient Code Editor (I/OCE) Specifications Version 12.0

Effective Date: January 1, 2011

Implementation Date: January 3, 2011

I. GENERAL INFORMATION

A. Background: This instruction informs the Fiscal Intermediaries (FIs), A/B MACs, and the Fiscal Intermediary Standard System (FISS) that the I/OCE was updated for January 1, 2011. The I/OCE routes all institutional outpatient claims (which includes non-OPPS hospital claims) through a single integrated OCE which eliminates the need to update, install, and maintain two separate OCE software packages on a quarterly basis. Claims with dates of service prior to July 1, 2007, should be routed through the non-integrated versions of the OCE software (OPPS and non-OPPS OCEs) that coincide with the versions in effect for the date of service on the claim. **The integration did not change the logic that is applied to outpatient bill types that previously passed through the OPPS OCE software. It merely expanded the software usage to include non-OPPS hospitals.**

B. Policy: This notification provides the Integrated OCE instructions and specifications for the Integrated OCE that will be utilized under the OPPS and Non-OPPS for hospital outpatient departments, community mental health centers, all non-OPPS providers, and for limited services when provided in a home health agency not under the Home Health Prospective Payment System or to a hospice patient for the treatment of a non-terminal illness. The I/OCE specifications will be posted to the CMS Website and can be found at <http://www.cms.hhs.gov/OutpatientCodeEdit/>.

VI. FUNDING

A. *For Fiscal Intermediaries and Carriers:*

No additional funding will be provided by CMS; contractor activities are to be carried out within their operating budgets.

B. *For Medicare Administrative Contractors (MAC):*

The Medicare Administrative Contractor (MAC) is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as changes to the MAC Statement of Work (SOW). The contractor is not obligated to incur costs in excess of the amounts specified in your contract unless and until specifically authorized by the contracting officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the contracting officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

DEFINITIONS

- A blank in a field indicates ‘no change’
- The “old” column describes the attribute prior to the change being made in the current update, which is indicated in the “new” column. If the effective date of the change is the same as the effective date of the new update, ‘old’ describes the attribute up to the last day of the previous quarter. If the effective date is retroactive, then ‘old’ describes the attribute for the same date in the previous release of the software.
- “Unassigned”, “Pre-defined” or “Placeholder” in APC or HCPCS descriptions indicates that the APC or HCPCS code is inactive. When the APC or HCPCS code is activated, it becomes valid for use in the OCE, and a new description appears in the “new description” column, with the appropriate effective date.
- Activation Date (ActivDate) indicates the mid-quarter date of FDA approval for a drug, or the mid-quarter date of a new or changed code resulting from a National Coverage Determination (NCD). The Activation Date is the date the code becomes valid for use in the OCE. If the Activation Date is blank, then the effective date takes precedence.
- Termination Date (TermDate) indicates the mid-quarter date when a code or change becomes inactive. A code is not valid for use in the OCE after its termination date.
- For codes with SI of “Q1, Q2, and Q3”, the APC assignment is the standard APC to which the code would be assigned if it is paid separately.

Summary of Modifications

The modifications of the IOCE for the January 2011 release (V12.0) are summarized in the table below. Readers should also read through the entire document and note the highlighted sections, which also indicate changes from the prior release of the software.

Some IOCE modifications in the update may also be retroactively added to prior releases. If so, the retroactive date will appear in the 'Effective Date' column.

#	Type	Effective Date	Edits Affected	Modification
1.	Logic	1/1/11	24	Modify the software to maintain 28 prior quarters (7 years) of programs in each release. Remove older versions with each release. (The earliest version date included in this January 2011 release will be 4/1/04.
2.	Logic	1/1/11	-	Modify the PHP logic to assign separate/different PHP APCs, Level I and Level II, for hospital-based (bill type 13x with cc 41) and CMHC (bill type 76x) partial hospitalization programs (appendix C).
3.	Logic	1/1/11	-	Modify the mental health logic to cap the payment rate for APC 34 at the rate for new APC 176
4.	Logic	1/1/11	-	For a specified group of ancillary services codes, change the Q[#] SI to 'N' if present on the same date of service as 99291 (critical care); otherwise, change the Q[#] SI to the standard SI and APC for the specified code. Exception: If modifier 59 is present on any line with the same date of service as 99291, do not package the specified ancillary codes, assign the standard SI and APC instead.
5.	Logic	1/1/11		Extend the use of modifier FB to nuclear medicine procedures when the associated diagnostic radiopharmaceutical is obtained at no cost to the provider – Assign Payment Adjustment Flag #7 to any Nuclear Medicine procedure code from a specified list if submitted with modifier 'FB' appended
6.	Logic	4/20/10	22	Add new Gulf oil spill-related modifier 'CS' to the valid modifier list.
7.	Logic	8/25/10	68	Change mid-quarter NCD approval date for codes C9801 and C9802 from 8/26/10 to 8/25/10.
8.	Content	1/1/11	-	Make HCPCS/APC/SI changes as specified by CMS (data change files).
9.	Content	-	19, 20, 39, 40	Implement version 16.3 of the NCCI (as modified for applicable institutional providers).
10.	Content	1/1/11	22	Add new modifiers AY, AZ, DA, GU, NB and PT to the valid modifier list.
11.	Content	1/1/11	22	Add new genetic testing code modifiers 4P, 4Q, 4R, 4S, 4T, and 4U to the valid modifier list.
12.	Content	1/1/11	-	Update composite APC requirements (added codes as specified).
13.	Content	1/1/11	71, 77	Update procedure/device and device/procedure edit requirements
14.	Doc	1/1/11	-	Create 508-compliant versions of the specifications & Summary of Data Changes documents for publication on the CMS web site.
