SUBJECT: Claim Status Category and Claim Status Codes Update

I. SUMMARY OF CHANGES: The Claim Status and Claim Status Category Codes for use by Medicare contractors with the Health Care Claim Status Request and Response ASC X12N 276/277, Health Care Claim Acknowledgement ASC X12N 277 are updated three times per year during at the Committee meeting. These meetings are held in the January/February time frame, again in June and finally in late September or early October in conjunction with the Accredited Standards Committee (ASC) X12 meetings. The Committee has decided to allow the industry 6 months for implementation of newly added or changed codes. Contractors are to use codes posted at http://www.wpc-edi.com/codes on or about July 1, 2011 which are listed as current codes on that site. This Recurring Update Notification (RUN) can be found in Chapter 31, Section 20.7.

EFFECTIVE DATE: July 1, 2011
IMPLEMENTATION DATE: July 5, 2011

Attachment – Recurring Update Notification

Pub. 100-04	Transmittal: 2177	Date: March 18, 2011	Change Request: 7348

SUBJECT: Claim Status Category Code and Claim Status Code Update

Effective Date: July 1, 2011

Implementation Date: July 5, 2011

I. GENERAL INFORMATION

A. Background: The Health Insurance Portability and Accountability Act (HIPAA) requires all health care benefit payers to use only Claim Status Category Codes and Claim Status Codes approved by the national Code Maintenance Committee in the X12 276/277 Health Care Claim Status Request and Response format adopted as the standard for national use (004010X093A1). These codes explain the status of submitted claim(s). Proprietary codes may not be used in the X12 276/277 to report claim status.

The national Code Maintenance Committee meets at the beginning of each X12 trimester meeting (February, June, and October) and makes decisions about additions, modifications, and retirement of existing codes. The codes sets are available at http://www.wpc-edi.com/content/view/180/223/. This page has previously been referenced by the following URL address: http://www.wpc-edi.com/codes. Included in the code lists are specific details, including the date when a code was added, changed, or deleted.

All code changes approved during the June 2011 committee meeting shall be posted on that site on or about July 1, 2011. Contractors must complete entry of all applicable code text changes and new codes, and terminated use of deactivated codes by the implementation date of this Change Request (CR).

CMS will issue Recurring Update Notifications (RUNs) regarding the need for future updates to these codes. When instructed, Medicare contractors must update their claims systems to assure that the current version of these codes is used in their claim status responses. Contractor and shared system changes will be made as necessary as part of a routine release to reflect applicable changes such as retirement of previously used codes or newly created codes.

These code changes are to be used in editing of all X12 276 transactions processed on or after the date of implementation and to be reflected in the X12 277 transactions issued on and after the date of implementation of this CR.

B. Policy: CMS' Medicare contractors must comply with the requirements contained in the version 004010X093A1 ASC X12 276/277 Implementation Guide and must use valid Claim Status Category Codes and Claim Status Codes when sending 277 responses.
