SUBJECT: New Numbers for All MAC Jurisdictions.

Effective Date: Cutover dates of MAC segments

Implementation Date: Earliest cutover date for a MAC segment is December 1, 2007

I. GENERAL INFORMATION

A. Background: The purpose of this Change Request (CR) is to notify all interested parties that the Centers for Medicare & Medicaid Services (CMS) will assign new numbers for MAC Jurisdictions. Medicare contracting reform requires that the CMS use competitive procedures to replace its current fiscal intermediaries and carriers with a uniform type of administrative entity, referred to as Medicare Administrative Contractor (MAC). As such, new numbers are required to identify the work being performed by the new MAC contractors.

The numbering scheme allows for three tiers of MAC numbers to meet the current and future needs of CMS and its contractors. The bottom tier is the **workload number**, which uniquely identifies each MAC workload by claim type and state as described below. The second tier number is the **Part A number, Part B number, DME (Durable Medical Equipment) number, or HHH (Home Health and Hospice) number**. This number is the aggregate for each of the claim types processed within each MAC jurisdiction and is commonly referred to as the “**roll-up**” number. The top tier consists of a single **jurisdiction number** which uniquely identifies each MAC and includes all claim types processed by that jurisdiction.

As the MAC implementations move forward, it is imperative that: 1) all CMS components and contractors understand the numbering convention and what it represents; 2) all claim processing and financial system applications recognize/process the appropriate numbers; and 3) all components use the appropriate number that best meets their needs within the overall MAC numbering scheme as described below. When each jurisdiction is awarded and cutover dates are finalized, a change request will be issued with the appropriate MAC numbers for that jurisdiction.

Workload Number:

For *Part A and Part B*, there will be a unique workload number for each state within the 15 MAC Jurisdictions. That number may be appended with unique Business Segment Identifier (BSI), which also represents the state and is used in certain applications and workload reporting. The following shows an example for the State of Kansas in Jurisdiction 5.

<u>Workload Number</u>					<u>Business Segment Identifier</u>		
<u>0</u>	<u>5</u>	<u>2</u>	<u>0</u>	<u>1</u>	<u>K</u>	<u>S</u>	<u>A</u>

Part A, Part B, DME, or HHH Number (a.k.a. Roll-up Number):

This number is for components requiring a roll-up number for Part A and Part B for the 15 A/B MACs (e.g., financial reporting) or a DME or HHH number. There will be no BSI or state indicator for these numbers. The Part A and Part B examples are shown for the state of Kansas.

The 4 DME Jurisdictions (Jurisdictions A, B, C, and D) are identified for numbering purposes as Jurisdictions 16, 17, 18, and 19 respectively.

Four A/B MACs (Jurisdictions 6, 11, 14, and 15) will be responsible for processing HHH claims. Each of those MACs will process HHH claims for a designated HHH jurisdiction, configured in the same manner as the DME jurisdictions. The following four examples illustrate the application of the roll-up number for each of the different claim types.

Part A (Roll-up) Number

<u>0</u>	<u>5</u>	<u>0</u>	<u>0</u>	<u>1</u>

HHH Number

<u>0</u>	<u>6</u>	<u>0</u>	<u>0</u>	<u>4</u>

* Claim type designations: Part A = 1; Part B = 2; DME = 3; RHHI = 4

Jurisdiction Number:

This would be the number representing the entire MAC jurisdiction. This would be used by an application desiring an all-inclusive jurisdiction number.

VI. FUNDING:

For Medicare Administrative Contractors (MAC): The contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the Statement of Work (SOW). The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

For Title XVIII contractors: N.A.
