Transmittal 3143	Date: December 5, 2014
	Change Request 8994

SUBJECT: Claim Status Category and Claim Status Codes Update

I. SUMMARY OF CHANGES: The Claim Status and Claim Status Category Codes for use by Medicare contractors with the Health Care Claim Status Request and Response ASC X12 276/277 and Health Care Claim Acknowledgment ASC X12 277, are updated three times per year at the Code Committee meeting. These meetings are held in the January/February time frame, again in June and finally in late September or early October in conjunction with the Accredited Standards Committee (ASC) X12 meetings. The Committee has decided to allow the industry 6 months for implementation of newly added or changed codes. Contractors are to use codes posted at <http://www.wpc-edi.com/codes> on or about February 1, 2015, which are listed as current codes on that site. This Recurring Update Notification (RUN) can be found in Chapter 31, Section 20.7.

III. FUNDING:

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC statement of Work. The contractor is not obliged to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

I. GENERAL INFORMATION

A. Background: The Health Insurance Portability and Accountability Act of 1996 (HIPAA) requires all covered entities to use only Claim Status Category Codes and Claim Status Codes approved by the National Code Maintenance Committee in the Accredited Standards Committee (ASC) X12 276/277 Health Care Claim Status Request and Response transaction standards adopted under HIPAA for electronically submitting health care claims status requests and responses. These codes explain the status of submitted claim(s). Proprietary codes may not be used in the ASC X12 276/277 transactions to report claim status.

The National Code Maintenance Committee meets at the beginning of each ASC X12 trimester meeting (February, June, and October) and makes decisions about additions, modifications, and retirement of existing codes. The codes sets are available at

<http://www.wpc-edi.com/reference/codelists/healthcare/claim-status-category-codes/>

<http://www.wpc-edi.com/reference/codelists/healthcare/claim-status-codes/>

These pages have previously been referenced by the following URL address: <http://www.wpc-edi.com/codes>. Included in the code lists are specific details, including the date when a code was added, changed, or deleted.

All code changes approved during the January 2015 committee meeting shall be posted on that site on or about February 1, 2015. Contractors must complete entry of all applicable code text changes and new codes, and terminated use of deactivated codes by the implementation date of this Change Request (CR).

CMS will issue Recurring Update Notifications (RUNs) regarding the need for future updates to these codes. When instructed, Medicare contractors must update their claims systems to ensure that the current version of these codes is used in their claim status responses. Contractor and shared systems changes will be made as necessary as part of a routine release to reflect applicable changes such as retirement of previously used codes or newly created codes.

These code changes are to be used in editing of all ASC X12 276 transactions processed on or after the date of implementation and to be reflected in the ASC X12 277 transactions issued on and after the date of implementation of this CR.

B. Policy: CMS' Medicare contractors must comply with the requirements contained in the current standards adopted under HIPAA for electronically submitting certain health care transactions, among them the ASC X12 276/277 Health Care Claim Status Request and Response. These contractors must use valid Claim Status Category Codes and Claim Status Codes when sending ASC X12 277 Health Care Claim Status Responses. They must also use valid Claim Status Category Codes and Claim Status Codes when sending ASC X12 277 Healthcare Claim Acknowledgments. References in this CR to "277 responses" encompass both the ASC X12 277 Health Care Claim Status Response and the ASC X12 277 Healthcare Claim Acknowledgment transactions.
