SUBJECT: January 2015 Update of the Ambulatory Surgical Center (ASC) Payment System

EFFECTIVE DATE: January 1, 2015

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: January 5, 2015

I. GENERAL INFORMATION

A. Background: Included in this notification are Core Based Statistical Area (CBSA) changes, CY 2015 payment rates for separately payable drugs and biologicals, including descriptors for newly created Level II HCPCS codes for drugs and biologicals (ASC DRUG files), and the CY 2015 ASC payment rates for covered surgical and ancillary services (ASCFS file).

Many ASC payment rates under the ASC payment system are established using payment rate information in the Medicare Physician Fee Schedule (MPFS). The payment files associated with this transmittal reflect the most recent changes to CY 2015 MPFS payment.

B. Policy: 1. New Device Pass-Through Category and Device Offset from Payment

Additional payments may be made to the ASC for covered ancillary services, including certain implantable devices with pass-through status under the outpatient prospective payment system (OPPS). Section 1833(t)(6)(B) of the Social Security Act (the Act) requires that, under the OPPS, categories of devices be eligible for transitional pass-through payments for at least 2, but not more than 3 years. Section 1833(t)(6)(B)(ii)(IV) of the Act requires that we create additional categories for transitional pass-through payment of new medical devices not described by current or expired categories of devices. This policy was implemented in the 2008 revised ASC payment system.

CMS is establishing one new HCPCS device pass-through category as of January 1, 2015 for the OPPS and the ASC payment systems. Table 1 provides a listing of new coding and payment information concerning the new device category for transitional pass-through payment. HCPCS code C2624 (Wireless pressure sensor) is assigned ASC PI=J7 (OPPS pass-through device paid separately when provided integral to a surgical procedure on ASC list; payment contractor-priced). (see Attachment A: Policy Section Tables)

2. New Service

CMS is establishing one new HCPCS surgical procedure code for ASC use effective January 1, 2015 in table 2. (see Attachment A: Policy Section Tables).

3. Billing for Corneal Tissue

CMS reminds ASCs that according to the Medicare Claims Processing Manual, Chapter 14, Section 40 - Payment for Ambulatory Surgery, that corneal tissue is paid based on acquisition cost or invoice. To receive cost based reimbursement for corneal tissue acquisition, ASCs must bill charges for corneal tissue using

HCPCS code V2785.

4. Coding Guidance for Intraocular or Periocular Injections of Combinations of Anti-Inflammatory Drugs and Antibiotics

Intraocular or periocular injections of combinations of anti-inflammatory drugs and antibiotics are being used with increased frequency in ocular surgery (primarily cataract surgery). One example of combined or compounded drugs includes triamcinolone and moxifloxacin with or without vancomycin. Such combinations may be administered as separate injections or as a single combined injection. Because such injections may obviate the need for post-operative anti-inflammatory and antibiotic eye drops, some have referred to cataract surgery with such injections as “dropless cataract surgery.”

As stated in Chapter VIII, section D, item 20 of the CY 2015 NCCI Policy Manual, injection of a drug during a cataract extraction procedure or other ophthalmic procedure is not separately reportable. Specifically, no separate procedure code may be reported for any type of injection during surgery or in the perioperative period. Injections are a part of the ocular surgery and are included as a part of the ocular surgery and the HCPCS code used to report the surgical procedure.

According to the Medicare Claims Processing Manual, Chapter 17, section 90.2, the compounded drug combinations described above and similar drug combinations should be reported with HCPCS code J3490 (Unclassified drugs), regardless of the site of service of the surgery, and are packaged as surgical supplies in both the Hospital Outpatient Department and the ASC. Although these drugs are a covered part of the ocular surgery, no separate payment will be made. In addition, these drugs and drug combinations may not be reported with HCPCS code C9399. According to the Medicare Claims Processing Manual, Chapter 30, section 40.3.6, physicians or facilities should not give Advance Beneficiary Notices (ABNs) to beneficiaries for either these drugs or for injection of these drugs because they are fully covered by Medicare. Physicians or facilities are not permitted to charge the patient an extra amount (beyond the standard copayment for the surgical procedure) for these injections or the drugs used in these injections because they are a covered part of the surgical procedure. Also, physicians or facilities cannot circumvent packaged payment in the hospital outpatient department (HOPD) or ASC for these drugs by instructing beneficiaries to purchase and bring these drugs to the facility for administration.

5. Drugs, Biologicals, and Radiopharmaceuticals

a. New CY 2015 HCPCS Codes and Dosage Descriptors for Certain Drugs, Biologicals, and Radiopharmaceuticals.

For CY 2015, several new HCPCS codes have been created in Table 3 for reporting drugs and biologicals in the ASC setting, where there have not previously been specific codes available. (see Attachment A: Policy Section Tables).

b. Other CY 2015 HCPCS and CPT Code Changes for Certain Drugs, Biologicals, and Radiopharmaceuticals.

Table 4 notes those separately payable drugs, biologicals, and radiopharmaceuticals that have undergone changes in their HCPCS codes, their long descriptors, or both. Each product's CY 2014 HCPCS code and CY 2014 long descriptors are noted in the two left-hand columns. The CY 2015 HCPCS code and long descriptors are noted in the adjacent right-hand columns. (see Attachment A: Policy Section Tables).

c. Drugs and Biologicals with Payments Based on Average Sales Price (ASP) Effective January 1, 2015

For CY 2015, payment for nonpass-through drugs, biologicals and therapeutic radiopharmaceuticals is made at a single rate of ASP + 6 percent, which provides payment for both the acquisition cost and pharmacy overhead costs associated with the drug, biological or therapeutic radiopharmaceutical. In CY 2015, a single

payment of ASP + 6 percent for pass-through drugs, biologicals and radiopharmaceuticals is made to provide payment for both the acquisition cost and pharmacy overhead costs of these pass-through items. Payments for drugs and biologicals based on ASPs will be updated on a quarterly basis as later quarter ASP submissions become available. Effective January 1, 2015, payment rates for many drugs and biologicals have changed from the values published in the CY 2015 OPPS/ASC final rule with comment period as a result of the new ASP calculations based on sales price submissions from the third quarter of CY 2014. In cases where adjustments to payment rates are necessary, changes to the payment rates will be incorporated in the January 2015 ASC Drug file. CMS is not publishing the updated payment rates in this Change Request implementing the January 2015 update of the ASC Payment System. However, the updated payment rates effective January 1, 2015 can be found in the January 2015 ASC Addendum BB on the CMS Web site at: http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ASCPayment/11_Addenda_Updates.html .

d. Skin Substitute Procedure Edits

The payment for skin substitute products that do not qualify for hospital outpatient prospective payment system (OPPS) pass-through status are packaged into the OPSS payment for the associated skin substitute application procedure. This policy is also implemented in the ASC payment system. The skin substitute products are divided into two groups: 1) high cost skin substitute products and 2) low cost skin substitute products for packaging purposes. Table 5, Attachment A, lists the skin substitute products and their assignment as either a high cost or a low cost skin substitute product, when applicable. ASCs should not separately bill for packaged skin substitutes (ASC PI=N1).

High cost skin substitute products should only be utilized in combination with the performance of one of the skin application procedures described by CPT codes 15271-15278. Low cost skin substitute products should only be utilized in combination with the performance of one of the skin application procedures described by HCPCS code C5271-C5278.

All OPSS pass-through skin substitute products (ASC PI=K2) should be billed in combination with one of the skin application procedures described by CPT code 15271-15278. (see Attachment A: Policy Section Tables).

6. Drugs and Biologicals Based on ASP Methodology with Restated Payment Rates

Some drugs and biologicals based on ASP methodology may have payment rates that are corrected retroactively. These retroactive corrections typically occur on a quarterly basis. The list of drugs and biologicals with corrected payments rates will be accessible on the CMS Web site on the first date of the quarter at <http://cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ASCPayment/index.html>

Suppliers who think they may have received an incorrect payment for drugs and biologicals impacted by these corrections, may request contractor adjustment of the previously processed claims.

7. CY2015 ASC Wage index

For the CY 2015 ASC wage indexes, CMS is using the new county based statistical area (CBSA) delineations issued by the Office of Management and Budget (OMB) in OMB Bulletin 13-01 (dated February 28, 2013). To mitigate short-term instability to ASC payments, we are applying a 1-year blended wage index for all ASCs that would experience any decrease in their actual wage index exclusively due to the implementation of the new OMB delineations. Specifically, for ASCs where the CY 2015 ASC wage index with the CY 2015 CBSAs is lower than with the CY 2014 CBSAs, we calculated the CY 2015 ASC wage index such that it is 50 percent of the ASC wage index based on the CY 2014 CBSA and 50 percent of the ASC wage index based on the new CY 2015 CBSA. For ASCs where the CY 2015 ASC wage index with the CY 2015 CBSAs is equal to or higher than with the CY 2014 CBSAs, we will use the CY 2015 wage index based on the CY 2015 CBSA.

Attachment B, is an excel spreadsheet that is sorted by State/county code (columns A-C) and shows the 2014 CBSA number used to assign ASCs, and the updated wage index value for CY 2014 used by CMS to develop the CY 2015 blended wage index value (columns D- E). The final CY 2015 wage index is located in column F. The corresponding CY 2015 CBSA number and descriptor is located in columns G-H.

When the CY 2015 wage index blended value did not correspond to an existing CBSA number, CMS created alternate or pseudo CBSA numbers (50000 series) to accomodate those wage index values. This complete set of CBSAs is included in Attachment B.

8. Coverage Determinations

The fact that a drug, device, procedure or service is assigned a HCPCS code and a payment rate under the OPPTS does not imply coverage by the Medicare program, but indicates only how the product, procedure, or service may be paid if covered by the program. Medicare Administrative Contractors (MACs) determine whether a drug, device, procedure, or other service meets all program requirements for coverage. For example, MACs determine that it is reasonable and necessary to treat the beneficiary’s condition and whether it is excluded from payment.
