EFFECTIVE DATE: January 1, 2011

IMPLEMENTATION DATE: January 3, 2011

I. GENERAL INFORMATION

A. Background: Change Request (CR) 6312, Transmittal 530, established a quarterly systematic deactivation process for deactivating Medicare billing privileges for providers/suppliers that had not billed the Medicare program for 12 consecutive months.

To ensure that providers/suppliers are notified that their Medicare billing privileges have been deactivated, FISS shall systematically generate a letter when a Part A deactivation occurs. Letters can be mailed by either FISS or the A/B MAC or Fiscal Intermediary.

B. Policy: The CMS policy regulation requiring the above action to deactivate non-billing providers and suppliers can be found at 42 CFR §424.540. This change request outlines a systematic approach to notify providers/suppliers who have had their billing privileges deactivated after 12 consecutive months on non-billing.
